## mini slide SLT-20-80-A-CC-B Part number: 197905

with precision heavy-duty ball-bearing guide and shock absorbers.

## **Data sheet**

| Feature                                    | Value   |
|--|---|
| Stroke                                     | 80 mm   |
| Adjustable end-position range/length       | 12 mm   |
| Piston diameter                            | 20 mm   |
| Operating mode of drive unit               | Yoke  |
| Cushioning                                 | CC: Shock absorber at both ends   |
| Assembly position                          | Any   |
| Guide                                      | Ball bearing cage guide   |
| Design structure                           | Yoke kinematics   |
| Position detection                         | For proximity sensor  |
| Operating pressure                         | 1 10 bar  |
| Repetition accuracy                        | 0.02 mm   |
| Mode of operation                          | double-acting   |
| Operating medium                           | Compressed air in accordance with ISO8573-1:2010 [7:4:4]                    |
| Note on operating and pilot medium         | Lubricated operation possible (subsequently required for further operation) |
| Corrosion resistance classification CRC    | 0 - No corrosion stress   |
| Ambient temperature                        | -20 60 °C   |
| Impact energy in end positions             | 3 Nm  |
| Cushioning length                          | 8 mm  |
| Max. force Fy                              | 1,030 N   |
| Max. force Fz                              | 1,030 N   |
| Max. torque Mx                             | 14 Nm   |
| Max. torque My                             | 14 Nm   |
| Max. torque Mz                             | 11 Nm   |
| Theoretical force at 6 bar, return stroke  | 317 N   |
| Theoretical force at 6 bar, advance stroke | 376 N   |
| Moving mass                                | 1,767 g   |
| Product weight                             | 1,799 g   |
| alternative connections                    | See product drawing   |
| Mounting type                              | with through hole   |
| Pneumatic connection                       | G1/8  |
| Materials note                             | Free of copper and PTFE   |
| Material cover                             | Wrought Aluminium alloy   |
| Material seals                             | HNBR  |
| Material housing                           | Wrought Aluminium alloy   |
| Material piston rod                        | High alloy steel, non-corrosive   |
