## solenoid valve VSVA-B-M52-MZ-A1-1C1-ANC Part number: 560744

## **Data sheet**

| Type of actuation<br>Width<br>Standard nominal flow rate      | 5/2 monostable<br>electrical<br>26 mm |
|---|---------------------------------------|
| Width<br>Standard nominal flow rate<br>Operating pressure MPa |                                       |
| Standard nominal flow rate Operating pressure MPa             | 26 mm                                 |
| Operating pressure MPa  |                                       |
| 1 81  | 1,100 l/min                           |
| Operating pressure  | -0.09 1.6 MPa                         |
|   | -0.9 16 bar                           |
| Design structure  | Piston slide                          |
| Type of reset   | mechanical spring                     |
| Authorisation   | C-Tick                                |
|   | c UL us - Recognized (OL)             |
|   | KC-EMV                                |
| CE mark (see declaration of conformity)                       | to EU directive for EMC               |
| Certificate issuing department                                | UL MH19482                            |
|   | To UK instructions for EMC            |
| Protection class  | IP65                                  |
|   | NEMA 4                                |
| Nominal size  | 9 mm                                  |
| Exhaust-air function  | throttleable                          |
|   | Via throttle plate                    |
|   | Via individual sub-base               |
| Sealing principle   | soft                                  |
|   | Any                                   |
|   | ISO 15407-1                           |
|   | VDMA 24563                            |
| Manual override   | Covered                               |
| Type of piloting  | Piloted                               |
|   | external                              |
|   | Any                                   |
|   | Inductive                             |
|   | Positive overlap                      |
|   | For all electrical connections        |
|   | with accessories                      |
|   | Normal position with sensor           |
|   | LED                                   |
| - , ,   | 0.3 1 MPa                             |
|   | 3 10 bar                              |
| •   | 1,400 l/min                           |
|   | 1,100 l/min                           |
|   | 1,100 l/min                           |
|   | 41 ms                                 |
|   | 21 ms                                 |
| -   | 60 ms                                 |
|   | 11 ms                                 |
| -   | 100 %                                 |
|   | 1,800 µs                              |
|   | 800 µs                                |

**FESTO** 

## FESTO

| Feature                                 | Value  |
|---|--|
| Nominal operating voltage DC            | 24 V   |
| Switch output                           | NPN  |
| Characteristic coil data                | 24 V DC: 1.8 W   |
| Permissible voltage fluctuation         | -15 % / +10 %  |
| Operating medium                        | Compressed air in accordance with ISO8573-1:2010 [7:4:4]                                       |
| Note on operating and pilot medium      | Lubricated operation possible (subsequently required for further                               |
| ······································  | operation)   |
| Vibration resistance                    | Transport application test at severity level 2 in accordance with FN 942017-4 and EN 60068-2-6 |
| Shock resistance                        | Shock test with severity level 2 in accordance with FN 942017-5 and EN 60068-2-27              |
| Corrosion resistance classification CRC | 0 - No corrosion stress  |
| PWIS conformity                         | VDMA24364-B1/B2-L  |
| Medium temperature                      | -5 50 °C   |
| Relative air humidity                   | 0 - 90 %   |
| Sound pressure level                    | 85 dB(A)   |
| Ambient temperature                     | -5 50 °C   |
| Max. tightening torque, valve mounting  | 1.8 2.2 Nm   |
| Product weight                          | 332 g  |
| Operating voltage range, DC sensor      | 10 30 V  |
| Short-circuit strength sensor           | Pulsing  |
| Idle current sensor                     | <= 10 mA   |
| Max. output current sensor              | 200 mA   |
| Max. switching frequency sensor         | 5,000 Hz   |
| Residual ripple sensor                  | ± 10 %   |
|   |  |
| Voltage drop sensor                     | <= 2 V   |
| Electrical connection                   | Plug pattern type C to EN 175301-803   |
|   | to EN 175301-803   |
|   | Without mains earth  |
| Sensor connection                       | Cable  |
|   | 2,5 m  |
| Mounting type                           | On sub-base  |
| Auxiliary pilot air port 12/14          | Connection plate size 26 mm, according to ISO 15407-1  |
| Pilot exhaust port 82/84                | Optional   |
|   | Ducted   |
|   | Non-ducted   |
| Pneumatic connection, port 1            | Connection plate size 26 mm, according to ISO 15407-1  |
| Pneumatic connection, port 2            | Connection plate size 26 mm, according to ISO 15407-1  |
| Pneumatic connection, port 3            | Connection plate size 26 mm, according to ISO 15407-1  |
| Pneumatic connection, port 4            | Connection plate size 26 mm, according to ISO 15407-1  |
| Pneumatic connection, port 5            | Connection plate size 26 mm, according to ISO 15407-1  |
| Pilot interface                         | According to ISO 15218   |
| Materials note                          | Conforms to RoHS   |
| Material seals                          | FPM  |
|   | NBR  |
| Material housing                        | Aluminium die cast   |
|   | PA   |
| Material screws                         | Galvanised steel   |
|   |  |
