## dispense head VTOE-D8-T3-M22C-08-F-P-P-S Part number: 8063373

## **Data sheet**

| Feature                                    | Value  |
|--|--|
| Valve function                             | 2/2 closed, monostable   |
| Operating pressure MPa                     | 0 0.05 MPa   |
| Operating pressure                         | 0 0.5 bar  |
|  | 0 7.25 psi   |
| Internal volume                            | 113 µl valve with fluid connections  |
| Nominal size                               | 0.8 mm   |
| Nominal width of dosing needle             | 0.6 mm   |
| Length of dosing needle                    | 30 mm  |
| Grid dimension                             | 9 mm   |
| Sealing principle                          | soft   |
| Assembly position                          | Any  |
| Type of reset                              | mechanical spring  |
| Type of piloting                           | direct   |
| Water flow rate at max. operating pressure | 1300 μl/s  |
| Min. dosing volume                         | 3 μl   |
| Note on dosing volume                      | Depending on the configuration, environment and application                                    |
| Typical dosing precision                   | <1% CV for volumes >5 μl   |
|  | <2.5% CV for volumes between 1-5 µl  |
| Note on dosing precision                   | Depending on the configuration, environment and application                                    |
| Max. switching frequency                   | 4 Hz   |
| Note on switching frequency                | Dependent on the ambient temperature and installation state                                    |
| Switching time on                          | 7 ms   |
| Note on switching time on                  | Depending on the configuration, environment and application                                    |
| Switching time off                         | 2 ms   |
| Note on switching time off                 | Depending on the configuration, environment and application                                    |
| Duty cycle                                 | 100% with single mounting  |
|  | 50% with block mounting (max. switch-on time 1s)   |
| Electrical power consumption               | 1.8 W  |
| Nominal operating voltage DC               | 24 V   |
| Permissible voltage fluctuation            | +/- 10 %   |
| Medium                                     | Fluid media  |
| Note on the medium                         | Observe resistance of materials that come into contact with media                              |
| Instructions for use                       | See application note (available on the Support Portal at festo.com)                            |
| Vibration resistance                       | Transport application test at severity level 2 in accordance with FN 942017-4 and EN 60068-2-6 |
| Shock resistance                           | Shock test with severity level 2 in accordance with FN 942017-5 and EN 60068-2-27              |
| Corrosion resistance classification CRC    | 0 - No corrosion stress  |
| PWIS conformity                            | VDMA24364-B2-L   |
| Storage temperature                        | -20 70 °C  |
| Medium temperature                         | 5 50 °C  |
| Protection class                           | IP30   |
| Note on degree of protection               | in assembled condition   |
| Ambient temperature                        | 5 40 °C  |
| Product weight                             | 18 g   |
| Electrical connection                      | 2-core   |

**FESTO** 

## FESTO

| Feature                               | Value  |
|---------------------------------------|--|
|                                       | Cable  |
|                                       | Open end   |
| Cable length                          | 0.15 m   |
| Wire ends                             | Sheath removed   |
| Nominal conductor cross section (AWG) | AWG28  |
| Mounting type                         | With female thread and centring sleeve                       |
| Fluid connection                      | UNF1/4-28  |
| Note on fluid connection              | Fitting provided for tubing with an outside diameter of 3 mm |
| Material of dosing needle             | High alloy steel, non-corrosive                              |
| Material number of dosing needle      | 1.4301   |
| Materials note                        | Conforms to RoHS   |
| Materials in contact with media       | ETFE   |
|                                       | FFPM   |
|                                       | PEEK   |
|                                       | High alloy steel, non-corrosive                              |
| Type of actuation                     | electrical   |
| Nominal altitude of use               | <= 2000 m NHN  |
| Relative air humidity                 | 0 - 95 %   |
|                                       | non-condensing   |
| Degree of contamination               | 2  |
