## vacuum generator OVEM-30-H-C-QO-CE-N-1PD Part number: 8070097

## Data sheet

| Feature                                       | Value                              |
|---|------------------------------------|
| Nominal size, Laval nozzle                    | 3 mm                               |
| Grid dimension                                | 36 mm                              |
| Design, silencer                              | open                               |
| Assembly position                             | Any                                |
| Ejector characteristic                        | High vacuum                        |
|   | Standard                           |
| Grade of filtration                           | 40 μm                              |
| Manual override                               | Pushing                            |
|   | Additionally via operating buttons |
| Integrated function                           | Ejector pulse valve, electrical    |
|   | Flow control valve                 |
|   | Electrical on-off valve            |
|   | Filter                             |
|   | Air saving function, electrical    |
|   | Non-return valve                   |
|   | Open silencer                      |
|   | Vacuum switch                      |
| Design structure                              | modular                            |
| Short circuit strength                        | Yes                                |
| Measured variable                             | Relative pressure                  |
| Measuring principle                           | Piezoresistive                     |
| Switching element function                    | Normally closed contact            |
|   | Normally open contact              |
| Switching function                            | Window comparator                  |
|   | Threshold value comparator         |
| Valve function                                | closed                             |
| Polarity protected                            | for all electrical connections     |
| Standard switching input                      | IEC 61131-2                        |
| Type of display                               | 4-place alphanumeric               |
|   | Backlit LCD                        |
| Indicating range [bar]                        | -0.999 0 bar                       |
| Unit(s) that can be displayed                 | bar                                |
| Hysteresis adjustment range [bar]             | -0.9 0 bar                         |
| Setting options                               | Via display and buttons            |
| Switching position indicator                  | LCD                                |
| Operating status display                      | Optical                            |
| Threshold setting range                       | -0.999 0 bar                       |
| Operating pressure                            | 2 8 bar                            |
| Operating pressure for max. vacuum            | 4 bar                              |
| Max. vacuum                                   | 93 %                               |
| Nominal operating pressure                    | 6 bar                              |
| Max. suction rate with respect to atmosphere  | 181 l/min                          |
| Air supply time at nominal operating pressure | 0.2 s                              |
| Operating voltage range DC                    | 20.4 27.6 V                        |
| Duty cycle                                    | 100 %                              |
| Inductive protective circuit                  | Adapted to MZ-, MY-, ME coils      |

## FESTO

| Feature                                      | Value   |
|--|---|
| Insulation voltage                           | 50 V  |
| Idle current                                 | < 70 mA   |
| Max. output current                          | 100 mA  |
| Residual current                             | 0.1 mA  |
| Switch output                                | PNP   |
| Voltage drop                                 | <= 2 V  |
| Characteristic coil data                     | 24 V DC: low-current phase 0.3 W, high-current phase 2.55 W |
| Surge strength                               | 0.8 kV  |
| Overload withstand capability                | Available   |
| Degree of contamination                      | 3   |
| Authorisation                                | RCM Mark<br>c UL us - Listed (OL)                           |
| KC mark                                      | KC-EMV  |
| CE mark (see declaration of conformity)      | to EU directive for EMC                                     |
| UKCA marking (see declaration of conformity) | To UK instructions for EMC                                  |
| Operating medium                             | Compressed air in accordance with ISO8573-1:2010 [7:4:4]    |
| Note on operating and pilot medium           | Lubricated operation not possible                           |
| Corrosion resistance classification CRC      | 2 - Moderate corrosion stress                               |
| PWIS conformity                              | VDMA24364 zone III  |
| Medium temperature                           | 0 50 °C   |
| Relative air humidity                        | 5 - 85 %  |
| Noise level at nominal operating pressure    | 75 dB(A)  |
| Protection class                             | IP65  |
| Safety class                                 | III   |
| Ambient temperature                          | 0 50 °C   |
| Max. tightening torque                       | 0.8 Nm with female thread                                   |
|  | 2.5 Nm with clearance hole                                  |
| Product weight                               | 825 g   |
| Pressure measuring range                     | -1 0 bar  |
| Accuracy, FS                                 | 3 %FS   |
| Switching point reproducibility, FS          | 0.6 %   |
| Input circuit logic                          | PNP (positive-switching)                                    |
| Electrical connection                        | 5-pin   |
|  | M12x1   |
|  | Plug  |
| Protection against manipulation              | PIN-Code  |
| Mounting type                                | with through hole   |
|  | with internal (female) thread                               |
|  | with accessories  |
| Pneumatic connection, port 1                 | QS-10   |
| Pneumatic connection, port 3                 | Silencer  |
| Vacuum connection                            | QS-12   |
| Materials note                               | Conforms to RoHS  |
| Material seals                               | HNBR  |
|  | NBR   |
| Material receiver nozzle                     | POM   |
| Material filter                              | Mesh  |
|  | PA<br>Sistered steel  |
| Matorial filter housing                      | Sintered steel  |
| Material filter housing                      | PA-reinforced   |
| Material housing                             | Wrought Aluminium alloy<br>PA-reinforced                    |
| Material adjusting screw                     | Steel   |
| Material silencer                            | Wrought Aluminium alloy                                     |
| ואומנכוומו סווכוונכו                         | POM   |
|  | PU foam   |
| Material screws                              | Steel   |
| Material screws<br>Material screen           | PA  |
| Material connector housing                   | Nickel-plated brass   |
| Material electrical contact                  | Brass, gold-plated  |
| Material electrical contact<br>Material pins | Steel   |
|  |   |

## FESTO

| Feature                     | Value                   |
|-----------------------------|-------------------------|
| Material transmitter nozzle | Wrought Aluminium alloy |
| Material keypad             | TPE-U                   |
| Material fitting            | Nickel-plated brass     |
