## sub-base **VABP-C13-100HFT0-F90-VDE1E** Part number: 8141661

## **Data sheet**

| Feature                                 | Value   |
|---|---|
| Assembly position                       | Any   |
| Design structure                        | 1001 channel structure                          |
| Valve connection conforms to standard   | VDI/VDE 3847-1                                  |
| Operating pressure MPa                  | 0 0.8 MPa                                       |
| Operating pressure                      | 0 8 bar   |
| Operating medium                        | Compressed air to ISO 8573-1:2010 [7:7:-]       |
|   | Inert gases                                     |
| Note on operating and pilot medium      | Lubricated operation not possible               |
| Corrosion resistance classification CRC | 3 - High corrosion stress                       |
| PWIS conformity                         | VDMA24364 zone III                              |
| Medium temperature                      | -40 80 °C                                       |
| Ambient temperature                     | -40 80 °C                                       |
| Product weight                          | 1,300 g   |
| Mounting type                           | with accessories                                |
| Pneumatic connection                    | Sub-base design, airing                         |
| Materials note                          | Conforms to RoHS                                |
| Material cover                          | Smooth-anodised wrought aluminium alloy (20 μm) |
| Material seals                          | EPDM  |
|   | NBR   |
| Material housing                        | Smooth-anodised wrought aluminium alloy (20 µm) |
| Material screws                         | High alloy steel, non-corrosive                 |
