## Vacuum generator VADMI-300-P Part number: 162534 Classic - do not use for new projects

With additional vacuum switch, PNP design Modern alternatives can be found by entering the first four characters

**FESTO** 

## **Data sheet**

| Feature  | Value                           |
|--|---------------------------------|
| Nominal size, Laval nozzle                                       | 3 mm                            |
| Grid dimension   | 22 mm                           |
| Design, silencer   | closed                          |
| Assembly position  | Any                             |
| Ejector characteristic   | High vacuum                     |
| Grade of filtration  | <= 40 μm                        |
| Manual override  | Pushing                         |
| Integrated function  | Ejector pulse valve, electrical |
|  | Flow control valve              |
|  | Electrical on-off valve         |
|  | Filter                          |
|  | Non-return valve                |
|  | Vacuum switch                   |
| Measured variable  | Relative pressure               |
| Measuring principle  | Piezoresistive                  |
| Switching element function                                       | Normally open contact           |
| Switching function   | Threshold value comparator      |
| Valve function   | closed                          |
| Polarity protected   | for all electrical connections  |
| Type of display  | LED                             |
| Hysteresis setting range   | -505 kPa                        |
| Hysteresis adjustment range [bar]                                | -0.50.05 bar                    |
| Hysteresis setting range   | -7.250.725 psi                  |
| Setting options  | Potentiometer                   |
| Operating status display   | Optical                         |
| Threshold value setting range                                    | -90 0 kPa                       |
| Threshold setting range  | -0.9 0 bar                      |
| Threshold value setting range                                    | -13.05 0 psi                    |
| Operating pressure MPa   | 0.2 0.8 MPa                     |
| Working pressure   | 2 8 bar                         |
| Operating pressure   | 29 116 psi                      |
| Max. vacuum  | 85 %                            |
| Nominal operating pressure                                       | 0.6 MPa                         |
| Nominal working pressure   | 6 bar                           |
| Nominal operating pressure (psi)                                 | 87 psi                          |
| Overload range   | 5 bar                           |
| Air supply time at nominal operating pressure with ejector pulse | 0.2 s                           |
| Operating voltage range DC                                       | 21.6 26.4 V                     |
| Duty cycle   | 100 %                           |
| Switch output  | PNP                             |
| Authorization  | RCM Mark                        |
|  | c UL us - Recognized (OL)       |

| Feature                                      | Value  |
|--|--|
| CE symbol (see declaration of conformity)    | according to EU-EMV guideline                            |
| UKCA marking (see declaration of conformity) | To UK instructions for EMC                               |
| Operating medium                             | Compressed air in accordance with ISO8573-1:2010 [7:4:4] |
| Note on operating and pilot medium           | Lubricated operation not possible                        |
| Corrosion resistance classification CRC      | 2 - Moderate corrosion stress                            |
| PWIS conformity                              | VDMA24364-B1/B2-L  |
| Medium temperature                           | 0 60 °C  |
| Protection class                             | IP65   |
| Ambient temperature                          | 0 50 °C  |
| Product weight                               | 380 g  |
| Pressure measurement range                   | 0 0.1 MPa  |
| Pressure measuring range                     | 0 1 bar  |
| Pressure measurement range                   | 0 14.5 psi   |
| Electrical connection                        | 4-pin  |
|  | M8x1   |
|  | Plug   |
| Mounting type                                | with through hole  |
|  | with internal (female) thread                            |
|  | Optional   |
| Pneumatic connection, port 1                 | G1/4   |
| Pneumatic connection, port 3                 | Integrated silencer                                      |
| Vacuum connection                            | G3/8   |
| Materials note                               | Conforms to RoHS   |
| Material seals                               | NBR  |
| Material receiver nozzle                     | Nickel-plated brass                                      |
| Material filter                              | PA   |
| Material filter housing                      | PC   |
| Material housing                             | Wrought Aluminum alloy                                   |
| Material silencer                            | PE   |
|  | РОМ  |
| Material piston                              | РОМ  |
| Material transmitter nozzle                  | Nickel-plated brass                                      |
