## Linear actuator DFPI-100- -ND2P-C1V-NB3P-A

Part number: 2184841

with integrated electropneuamatic positioner, double-acting, piston diameter 100 mm, fastening interfaces according to ISO 15552 on bearing and end caps, electric/pneumatic connection via metallic flange-type socket and connecting cable NHSB (accessories), 4-line, 24 VDC power supply, setpoint input 4...20 mA, position feedback signal 4...20 mA, advancing piston rod safety position.

## **Data sheet**

| Feature   | Value  |
|---|--|
| Size of actuator                                  | 100  |
| Stroke  | 40 990 mm                                      |
| Piston diameter                                   | 100 mm   |
| Based on the standard                             | ISO 15552                                      |
| Cushioning  | No cushioning                                  |
| Assembly position                                 | Any  |
| Mode of operation                                 | double-acting                                  |
| Design structure                                  | Piston   |
|   | Piston rod                                     |
|   | Tie rod  |
|   | Cylinder barrel                                |
| Position detection                                | With integrated displacement encoder           |
| Measuring method: displacement encoder            | Potentiometer                                  |
| Polarity protected                                | for operating voltage                          |
|   | for set point value                            |
|   | Initialization connection                      |
| Operating pressure MPa                            | 0.3 0.8 MPa                                    |
| Working pressure                                  | 3 8 bar  |
| Operating pressure                                | 43.5 116 psi                                   |
| Nominal operating pressure                        | 0.6 MPa  |
| Nominal working pressure                          | 6 bar  |
| Nominal operating pressure (psi)                  | 87 psi   |
| Analog output                                     | 4 - 20 mA                                      |
| Operating voltage range DC                        | 21.6 26.4 V                                    |
| Max. current consumption                          | 220 mA   |
| Nominal operating voltage DC                      | 24 V   |
| Setpoint input                                    | 4 20 mA  |
| Authorization                                     | RCM Mark                                       |
| KC mark   | KC-EMV   |
| CE symbol (see declaration of conformity)         | according to EU-EMV guideline                  |
|   | according to EU-Ex protection guideline (ATEX) |
|   | in accordance with EU RoHS directive           |
| UKCA marking (see declaration of conformity)      | To UK instructions for EMC                     |
|   | To UK EX instructions                          |
|   | To UK RoHS instructions                        |
| Explosion protection certification outside the EU | EPL Dc (GB)                                    |
|   | EPL Gc (GB)                                    |
| ATEX category Gas                                 | II 3G  |
| ATEX category Dust                                | II 3D  |
| Explosion ignition protection type Gas            | Ex ec IIC T4 X Gc                              |

**FESTO** 

## FESTO

| Feature  | Value  |
|--|--|
| Explosion ignition protection type Dust                  | Ex tc IIIC T120°C X Dc   |
| Explosion-proof ambient temperature                      | -5°C <= Ta <= +50°C  |
| Operating medium   | Compressed air in accordance with ISO8573-1:2010 [7:4:4]         |
| Note on operating and pilot medium                       | Lubricated operation possible (subsequently required for further |
|  | operation)   |
| Continuous shock resistance per DIN/IEC 68, parts 2 - 82 | Tested in accordance with severity level 2                       |
| PWIS conformity  | VDMA24364 zone III   |
| Storage temperature                                      | -5 50 °C   |
| Medium temperature                                       | -5 40 °C   |
| Relative air humidity                                    | 5 - 100 %  |
|  | Condensing   |
| Protection class   | IP65   |
|  | IP67   |
|  | IP69K  |
|  | NEMA 4   |
| Vibration resistance per DIN/IEC 68, parts 2 - 6         | Tested in accordance with severity level 2                       |
| Ambient temperature                                      | -5 50 °C   |
| Theoretical force at 0.6 MPa (6 bar, 87 psi), retracting | 4,417 N  |
| Theoretical force at 0.6 MPa (6 bar, 87 psi), advance    | 4.712 N  |
| Air consumption returning per 10 mm stroke               | 0.515  |
| Air consumption advancing per 10 mm stroke               | 0.5491   |
| Moving mass with 0 mm stroke                             | 1,060 g  |
| Additional mass factor per 10 mm of stroke               | 28 g   |
| Basic weight for 0 mm stroke                             | 5,280 g  |
| Additional weight per 10 mm stroke                       | 90 g   |
| Accuracy of analogue output                              | 1 %FS  |
| Size of the dead zone                                    | 1 %FS  |
| Hysteresis FS  | 1 %FS  |
| Positioning accuracy                                     | 1.0% FS  |
| Repetition accuracy in ± %FS                             | 1 %FS  |
| Electrical connection                                    | 5-pin  |
|  | Straight plug / screw terminal                                   |
|  | With specific accessories  |
| Pneumatic connection                                     | For tubing outside diameter 8 mm                                 |
|  | For tubing outside diameter 10 mm                                |
|  | With specific accessories  |
| Materials note   | Conforms to RoHS   |
| Material of end caps                                     | Coated wrought aluminium alloy                                   |
| Material underneath cover                                | Coated die-cast aluminium  |
| Material piston rod                                      | High alloy steel, non-corrosive                                  |
| Material piston rod wiper seal                           | TPE-U(PU)  |
| Material screws  | Coated steel   |
|  | High alloy steel, non-corrosive                                  |
| Material static seals                                    | NBR  |
| Material tie rod   | High alloy steel, non-corrosive                                  |
|  |  |
