## Vacuum generator VN-10-H-T4-PQ2-VQ2-O2-P Part number: 536805

**FESTO** 

With integrated vacuum switch. Standard, high vacuum, width 18 mm, T shape with plug connector and open silencer.

## **Data sheet**

| Feature  | Value                                    |  |
|--|--|--|
| Nominal size, Laval nozzle                     | 0.95 mm                                  |  |
| Grid dimension                                 | 16 mm                                    |  |
| Design, silencer                               | open                                     |  |
| Assembly position                              | Any                                      |  |
| Ejector characteristic                         | High vacuum                              |  |
|  | Standard                                 |  |
| Integrated function                            | Pressure sensor                          |  |
|  | Open silencer                            |  |
| Design structure                               | T-shaped                                 |  |
| Short circuit strength                         | Pulsing                                  |  |
| Measured variable                              | Relative pressure                        |  |
| Measuring principle                            | Piezoresistive                           |  |
| Measurement method                             | Relative                                 |  |
| Switching element function                     | Normally open contact                    |  |
| Switching function                             | Threshold value comparator               |  |
|  | Threshold value with variable hysteresis |  |
| Polarity protected                             | for all electrical connections           |  |
| Type of display                                | LED                                      |  |
| Threshold value setting range                  | -100 0 kPa                               |  |
| Setting options                                | Teach-In                                 |  |
| Operating status display                       | LED                                      |  |
| Threshold setting range                        | -1 0 bar                                 |  |
| Threshold value setting range                  | -14.5 0 psi                              |  |
| Operating pressure for max. suction rate (MPa) | 0.3 MPa                                  |  |
| Working pressure for max. suction rate         | 3 bar                                    |  |
| Operating pressure for max. suction rate (psi) | 43.5 psi                                 |  |
| Operating pressure MPa                         | 0.1 0.8 MPa                              |  |
| Working pressure                               | 1 8 bar                                  |  |
| Operating pressure                             | 14.5 116 psi                             |  |
| Operating pressure for max. vacuum (MPa)       | 0.35 MPa                                 |  |
| Working pressure for max. vacuum               | 3.5 bar                                  |  |
| Operating pressure for max. vacuum (psi)       | 50.75 psi                                |  |
| Max. vacuum                                    | 93 %                                     |  |
| Nominal operating pressure                     | 0.6 MPa                                  |  |
| Nominal working pressure                       | 6 bar                                    |  |
| Nominal operating pressure (psi)               | 87 psi                                   |  |
| Max. suction rate with respect to atmosphere   | 21.8 l/min                               |  |
| Switch-off time                                | <= 4 ms                                  |  |
| Switch-on time                                 | <= 4 ms                                  |  |
| Operating voltage range DC                     | 15 30 V                                  |  |
| Inductive protective circuit                   | Adapted to MZ-, MY-, ME coils            |  |
| Max. output current                            | 100 mA                                   |  |
| Residual current                               | <= 0.3 mA                                |  |

| Feature                                      | Value  |
|--|--|
| Residual ripple                              | 10 %   |
| Switch output                                | PNP  |
| Voltage drop                                 | <= 1.5 V   |
| Overload withstand capability                | Available  |
| Authorization                                | RCM Mark   |
| KC mark                                      | KC-EMV   |
| CE symbol (see declaration of conformity)    | according to EU-EMV guideline                            |
| UKCA marking (see declaration of conformity) | To UK instructions for EMC                               |
| Operating medium                             | Compressed air in accordance with ISO8573-1:2010 [7:4:4] |
| Note on operating and pilot medium           | Lubricated operation not possible                        |
| Corrosion resistance classification CRC      | 1 - Low corrosion stress                                 |
| PWIS conformity                              | VDMA24364-B1/B2-L  |
| Medium temperature                           | 0 60 °C  |
| Recommendation for cleaning                  | Soap suds  |
| Noise level at nominal operating pressure    | 70 dB(A)   |
| Protection class                             | IP40   |
| Ambient temperature                          | 0 50 °C  |
| Max. tightening torque                       | 0.6 Nm   |
| Pressure measurement range                   | -100 0 kPa   |
| Pressure measuring range                     | -1 0 bar   |
| Pressure measurement range                   | -14.5 0 psi  |
| Product weight                               | 36 g   |
| Accuracy, FS                                 | 1.5 %FS  |
| Long term drift                              | ±0.5% FS max.  |
| Temperature coefficient, switching point     | 0.05 %/K   |
| Electrical connection                        | 3-pin  |
|  | M8   |
| Mounting type                                | with through hole  |
| Pneumatic connection, port 1                 | QS-6   |
| Pneumatic connection, port 3                 | Open silencer  |
| Vacuum connection                            | QS-6   |
| Material seals                               | NBR  |
| Material receiver nozzle                     | POM  |
| Material housing                             | POM-reinforced   |
| Material fibre-optic                         | PC   |
| Material silencer                            | PE   |
| Material connector housing                   | Brass  |
|  | PA   |
|  | Chromium and nickel plated                               |
| Material transmitter nozzle                  | Wrought Aluminum alloy                                   |
| Material keypad                              | POM  |
| Material fitting                             | Brass  |
|  | Nickel plated  |
