## Vacuum generator OVEM-07-H-B-GO-CE-N-2N Part number: 540012

**FESTO** 

Supply/vacuum port with G threads, exhaust port with open silencer

## **Data sheet**

| Feature                                      | Value                              |
|--|------------------------------------|
| Nominal size, Laval nozzle                   | 0.7 mm                             |
| Grid dimension                               | 20 mm                              |
| Design, silencer                             | open                               |
| Assembly position                            | Any                                |
| Ejector characteristic                       | High vacuum                        |
|  | Standard                           |
| Grade of filtration                          | 40 μm                              |
| Manual override                              | Pushing                            |
|  | Additionally via operating buttons |
| Integrated function                          | Ejector pulse valve, electrical    |
|  | Flow control valve                 |
|  | Electrical on-off valve            |
|  | Filter                             |
|  | Air saving function, electrical    |
|  | Non-return valve                   |
|  | Open silencer                      |
|  | Vacuum switch                      |
| Design structure                             | modular                            |
| Short circuit strength                       | Yes                                |
| Measured variable                            | Relative pressure                  |
| Measuring principle                          | Piezoresistive                     |
| Switching element function                   | Normally closed contact            |
|  | Normally open contact              |
| Switching function                           | Window comparator                  |
|  | Threshold value comparator         |
| Valve function                               | closed                             |
| Polarity protected                           | for all electrical connections     |
| Standard switching input                     | IEC 61131-2                        |
| Type of display                              | 4-place alphanumeric               |
|  | Backlit LCD                        |
| Indicating range [bar]                       | -0.999 0 bar                       |
| Unit(s) that can be displayed                | bar                                |
| Hysteresis adjustment range [bar]            | -0.9 0 bar                         |
| Setting options                              | Via display and buttons            |
| Switching position indicator                 | LCD                                |
| Operating status display                     | Optical                            |
| Threshold setting range                      | -0.999 0 bar                       |
| Working pressure                             | 2 8 bar                            |
| Working pressure for max. vacuum             | 4.1 bar                            |
| Max. vacuum                                  | 93 %                               |
| Nominal working pressure                     | 6 bar                              |
| Max. suction rate with respect to atmosphere | 16 l/min                           |
| Air supply time at nominal working pressure  | 0.4 s                              |
| Operating voltage range DC                   | 20.4 27.6 V                        |

| Feature  | Value   |
|--|---|
| Duty cycle                                       | 100 %   |
| Inductive protective circuit                     | Adapted to MZ-, MY-, ME coils                               |
| Insulation voltage                               | 50 V  |
| Idle current                                     | < 70 mA   |
| Max. output current                              | 100 mA  |
| Residual current                                 | 0.1 mA  |
| Switch output                                    | 2xNPN   |
| Voltage drop                                     | <= 1.5 V  |
| Characteristic coil data                         | 24 V DC: low-current phase 0.3 W, high-current phase 2.55 W |
| Surge strength                                   | 0.8 kV  |
| Overload withstand capability                    | Available   |
| Degree of contamination                          | 3   |
| Authorization                                    | RCM Mark  |
|  | c UL us - Listed (OL)                                       |
| KC mark  | KC-EMV  |
| CE symbol (see declaration of conformity)        | according to EU-EMV guideline                               |
| UKCA marking (see declaration of conformity)     | To UK instructions for EMC                                  |
| Operating medium                                 | Compressed air in accordance with ISO8573-1:2010 [7:4:4]    |
| Note on operating and pilot medium               | Lubricated operation not possible                           |
| Corrosion resistance classification CRC          | 2 - Moderate corrosion stress                               |
| PWIS conformity                                  | VDMA24364 zone III  |
| Medium temperature                               | 0 50 °C   |
| Relative air humidity                            | 5 - 85 %  |
| Noise level at nominal operating pressure        | 58 dB(A)  |
| Protection class                                 | IP65  |
| Safety class                                     |   |
| Ambient temperature                              | 0 50 °C   |
| Max. tightening torque                           | 0.8 Nm with female thread                                   |
| Due doubt weight                                 | 2.5 Nm with clearance hole                                  |
| Product weight                                   | 335 g   |
| Pressure measuring range                         | -1 0 bar<br>3 %FS   |
| Accuracy, FS Switching point reproducibility, FS | 0.6%  |
| Input circuit logic                              | NPN (negative switching)                                    |
| Electrical connection                            | 5-pin   |
| Liectifical confiection                          | M12x1   |
|  | Plug  |
| Mounting type                                    | with through hole   |
| mounting type                                    | with internal (female) thread                               |
|  | with accessories  |
| Pneumatic connection, port 1                     | G1/4  |
| Pneumatic connection, port 3                     | Integrated silencer   |
| Vacuum connection                                | G1/4  |
| Materials note                                   | Conforms to RoHS  |
| Material seals                                   | NBR   |
| Material receiver nozzle                         | POM   |
| Material filter                                  | Mesh  |
|  | PA  |
|  | Sintered steel  |
| Material filter housing                          | PA-reinforced   |
| Material housing                                 | Aluminum die cast   |
|  | PA-reinforced   |
| Material adjusting screw                         | Steel   |
| Material silencer                                | Wrought Aluminum alloy                                      |
|  | PU foam   |
| Material screws                                  | Steel   |
| Material screen                                  | PA  |
| Material connector housing                       | Nickel-plated brass   |
| Material electrical contact                      | Brass, gold-plated  |
| Material pins                                    | Steel   |
| Material transmitter nozzle                      | Wrought Aluminum alloy                                      |

| Feature          | Value                            |
|------------------|----------------------------------|
| Material keypad  | TPE-U                            |
| Material fitting | Anodised wrought aluminium alloy |
