## Compact cylinder ADN-3/4"-1 1/4"-I-P-A Part number: 557059

Per ISO 21287, with position sensing and internal piston rod thread

## **Data sheet**

| Feature                                                  | Value                                                            |
|----------------------------------------------------------|------------------------------------------------------------------|
| Stroke                                                   | 1.25 "                                                           |
| Piston diameter                                          | 3/4"                                                             |
| Piston rod thread                                        | 10-32 UNF-2B                                                     |
| Based on the standard                                    | ISO 21287                                                        |
| Cushioning                                               | P: Flexible cushioning rings/plates at both ends                 |
| Assembly position                                        | Any                                                              |
| Mode of operation                                        | double-acting                                                    |
| Piston-rod end                                           | Female thread                                                    |
| Design structure                                         | Piston                                                           |
|                                                          | Piston rod                                                       |
|                                                          | Profile barrel                                                   |
| Position detection                                       | For proximity sensor                                             |
| Variants                                                 | Single-ended piston rod                                          |
| Operating pressure MPa                                   | 0.1 1 MPa                                                        |
| Working pressure                                         | 1 10 bar                                                         |
| Operating pressure                                       | 14.5 145 psi                                                     |
| Operating medium                                         | Compressed air in accordance with ISO8573-1:2010 [7:4:4]         |
| Note on operating and pilot medium                       | Lubricated operation possible (subsequently required for further |
|                                                          | operation)                                                       |
| Corrosion resistance classification CRC                  | 2 - Moderate corrosion stress                                    |
| PWIS conformity                                          | VDMA24364-B1/B2-L                                                |
| Ambient temperature                                      | -4 176 °F                                                        |
| Impact energy in end positions                           | 0.148 ft-lbf                                                     |
| Theoretical force at 0.6 MPa (6 bar, 87 psi), retracting | 31.698 lbf                                                       |
| Theoretical force at 0.6 MPa (6 bar, 87 psi), advance    | 42.264 lbf                                                       |
| Moving mass with 0 mm stroke                             | 1.062 oz                                                         |
| Additional mass factor per 10 mm of stroke               | 0.743 oz                                                         |
| Basic weight for 0 mm stroke                             | 4.637 oz                                                         |
| Additional weight per 10 mm stroke                       | 0.212 oz                                                         |
| Mounting type                                            | with through hole                                                |
|                                                          | with internal (female) thread                                    |
|                                                          | with accessories                                                 |
|                                                          | Optional                                                         |
| Pneumatic connection                                     | 10-32 UNF-2B                                                     |
| Material of flange screw                                 | Steel                                                            |
| Material cover                                           | Anodised wrought aluminium alloy                                 |
| Material of dynamic seals                                | TPE-U(PU)                                                        |
| Material piston rod                                      | High alloy steel                                                 |
| Material cylinder barrel                                 | Smooth-anodised wrought aluminium alloy                          |
