## Servomotor EMMS-AS-140-SK-HS-RMB Part number: 560902 Product to be discontinued

Without gear unit.

## **Data sheet**

| Feature  | Value                                       |
|--|---|
| Ambient temperature                              | -10 40 °C                                   |
| Storage temperature                              | -20 60 °C                                   |
| Relative air humidity                            | 0 - 90 %                                    |
| Conforms to standard                             | IEC 60034                                   |
| Insulation protection class                      | F   |
| Rating class according to EN 60034-1             | S1  |
| Temperature monitoring                           | PTC resistor                                |
| Protection class                                 | IP54  |
| Shaft design Featherkey                          | DIN 6885                                    |
|  | A 8 x 7 x 40                                |
| Electrical connector system                      | Plug  |
| Materials note                                   | Conforms to RoHS                            |
| Corrosion resistance classification CRC          | 2 - Moderate corrosion stress               |
| PWIS conformity                                  | VDMA24364-B2-L                              |
| Authorization                                    | RCM Mark                                    |
|  | c UL us - Recognized (OL)                   |
| CE symbol (see declaration of conformity)        | according to EU-EMV guideline               |
|  | according to EU low voltage guideline       |
|  | in accordance with EU RoHS directive        |
| UKCA marking (see declaration of conformity)     | To UK instructions for electrical equipment |
|  | To UK instructions for EMC                  |
|  | To UK RoHS instructions                     |
| Nominal voltage DC                               | 565 V                                       |
| Type of winding switch                           | Star inside                                 |
| Number of pole pairs                             | 6   |
| Standstill torque                                | 11.32 Nm                                    |
| Nominal torque                                   | 9.55 Nm                                     |
| Peak torque                                      | 25.6 Nm                                     |
| Nominal rotary speed                             | 2,600 1/min                                 |
| Max. speed                                       | 3,060 1/min                                 |
| Nominal motor power                              | 2,600 W                                     |
| Nominal motor current                            | 4.4 A                                       |
| Peak current                                     | 15 A  |
| Motor constant                                   | 2.166 Nm/A                                  |
| Voltage constant, phase-to-phase                 | 130.69 mVmin                                |
| Phase-phase winding resistance                   | 3.39 Ohm                                    |
| Phase-phase winding inductance                   | 20.5 mH                                     |
| Overall mass moment of inertia at power take-off | 9.271 kgcm2                                 |
| Product weight                                   | 10,400 g                                    |
| Permissible axial shaft load                     | 200 N                                       |
| Permissible radial shaft load                    | 780 N                                       |
| Rotor position sensor                            | Absolute multi-turn encoder                 |
| Rotary position encoder interface                | EnDat 22                                    |
| Rotary position encoder measuring principle      | Inductive                                   |

**FESTO** 

## FESTO

| Feature                           | Value   |
|-----------------------------------|---|
| Rotor position encoder resolution | 19 Bit  |
| Brake holding torque              | 18 Nm   |
| Operating voltage DC for brake    | 24 V  |
| Power consumption, brake          | 15.6 W  |
| Mass moment of inertia of brake   | 1.082 kgcm2   |
| Switching cycles, holding brake   | 5 million idle actuations (without work of friction!) |
| MTTF, subcomponent                | 76 years, rotary position encoder                     |
|                                   | 4469 years, holding brake                             |
| MTTFd, subcomponent               | 152 years, rotary position encoder                    |
| Energy efficiency                 | ENEFF (CN) / Class 2                                  |
