

# Covering kit EASC-S1-46-240-S

Part number: 562736

FESTO

For covering the axis profile which is open at the top.

## Data sheet

| Feature                                 | Value                              |
|---|------------------------------------|
| Size                                    | 46                                 |
| Assembly position                       | Any                                |
| Corrosion resistance classification CRC | 2 - Moderate corrosion stress      |
| PWIS conformity                         | VDMA24364-B2-L                     |
| Ambient temperature                     | -10 ... 60 °C                      |
| Product weight                          | 724 g                              |
| Materials note                          | Conforms to RoHS                   |
| Material cover profile                  | Wrought Aluminum alloy<br>Anodized |
| Material adapter plate                  | Wrought Aluminum alloy<br>Anodized |
