## Solenoid valve VSVA-B-T32U-AZH-A1-1T1L Part number: 8033038

## **Data sheet**

| Feature                                                      | Value                                                                                          |
|--------------------------------------------------------------|------------------------------------------------------------------------------------------------|
| Valve function                                               | 2x3/2 open, monostable                                                                         |
| Type of actuation                                            | electrical                                                                                     |
| Width                                                        | 26 mm                                                                                          |
| Standard nominal flow rate                                   | 900 l/min                                                                                      |
| Operating pressure MPa                                       | 0.3 1 MPa                                                                                      |
| Working pressure                                             | 3 10 bar                                                                                       |
| Design structure                                             | Piston slide                                                                                   |
| Authorization                                                | c UL us - Recognized (OL)                                                                      |
| Protection class                                             | IP65                                                                                           |
|                                                              | NEMA 4                                                                                         |
| Exhaust-air function                                         | throttleable                                                                                   |
|                                                              | Via throttle plate                                                                             |
|                                                              | Via individual sub-base                                                                        |
| Sealing principle                                            | soft                                                                                           |
| Assembly position                                            | Any                                                                                            |
| Manual override                                              | Pushing                                                                                        |
| Type of piloting                                             | Piloted                                                                                        |
| Pilot air supply                                             | external                                                                                       |
|                                                              | Internal                                                                                       |
| Flow direction                                               | non reversible                                                                                 |
| Lap                                                          | Positive overlap                                                                               |
| Signal status display                                        | LED                                                                                            |
| Pilot pressure MPa                                           | 0.3 1 MPa                                                                                      |
| Pilot pressure                                               | 3 10 bar                                                                                       |
| Flow rate of valve                                           | 1,250 l/min                                                                                    |
| Flow rate of valve on individual subbase                     | 1,100 l/min                                                                                    |
| Optimized flow rate of valve pneumatically concatenated flow | 1,150 l/min                                                                                    |
| Flow rate of pneumatically linked valve                      | 900 l/min                                                                                      |
| Switching time off                                           | 38 ms                                                                                          |
| Switching time on                                            | 20 ms                                                                                          |
| Duty cycle                                                   | 100 %                                                                                          |
| Max. positive test pulse with logic 0                        | 1,500 μs                                                                                       |
| Max. negative test pulse with logic 1                        | 1,200 μs                                                                                       |
| Max. current consumption                                     | 60 mA                                                                                          |
| Nominal operating voltage DC                                 | 24 V                                                                                           |
| Characteristic coil data                                     | 24 V DC: 1.3 W                                                                                 |
| Surge strength                                               | 2.5 kV                                                                                         |
| Degree of contamination                                      | 3                                                                                              |
| Permissible voltage fluctuation                              | +/- 10 %                                                                                       |
| Operating medium                                             | Compressed air in accordance with ISO8573-1:2010 [7:4:4]                                       |
| Note on operating and pilot medium                           | Lubricated operation possible (subsequently required for further operation)                    |
| Vibration resistance                                         | Transport application test at severity level 2 in accordance with FN 942017-4 and EN 60068-2-6 |
| Shock resistance                                             | Shock test with severity level 2 in accordance with FN 942017-5 and EN 60068-2-27              |

| Feature                                 | Value                                                    |
|-----------------------------------------|----------------------------------------------------------|
| Corrosion resistance classification CRC | 0 - No corrosion stress                                  |
| PWIS conformity                         | VDMA24364-B1/B2-L                                        |
| Relative air humidity                   | 0 - 90 %                                                 |
| Pilot medium                            | Compressed air in accordance with ISO8573-1:2010 [7:4:4] |
| Ambient temperature                     | -5 50 °C                                                 |
| Product weight                          | 335 g                                                    |
| Electrical connection                   | Plug-in                                                  |
|                                         | according to ISO 15407-2                                 |
| Mounting type                           | On subbase                                               |
| Auxiliary pilot air port 12/14          | Manifold block, size 26 mm acc. to ISO 15407-2           |
| Pilot exhaust port 82/84                | Optional                                                 |
|                                         | Not ducted as per standard                               |
|                                         | Ducted                                                   |
| Pneumatic connection, port 1            | Manifold block, size 26 mm acc. to ISO 15407-2           |
| Pneumatic connection, port 2            | Manifold block, size 26 mm acc. to ISO 15407-2           |
| Pneumatic connection, port 3            | Manifold block, size 26 mm acc. to ISO 15407-2           |
| Pneumatic connection, port 4            | Manifold block, size 26 mm acc. to ISO 15407-2           |
| Pneumatic connection, port 5            | Manifold block, size 26 mm acc. to ISO 15407-2           |
| Materials note                          | Conforms to RoHS                                         |
| Material seals                          | FPM                                                      |
|                                         | HNBR                                                     |
|                                         | NBR                                                      |
| Material housing                        | Aluminum die cast                                        |
|                                         | PA                                                       |
| Material screws                         | Galvanized steel                                         |
