

# Adjusting kit EADC-E15-80-E7

Part number: 8047566

FESTO

## Data sheet

| Feature                                 | Value                   |
|---|-------------------------|
| Size                                    | 80                      |
| Corrosion resistance classification CRC | 0 - No corrosion stress |
| PWIS conformity                         | VDMA24364-B2-L          |
| Product weight                          | 386 g                   |
| Materials note                          | Conforms to RoHS        |
