

# Modul sursa de alimentare CDVI5.0-EBX-DN

Cod: 536815

FESTO

pentru insula de ventile CDVI, Clean Design.

## Fisa tehnica

| Caracteristica                       | valoare                   |
|--------------------------------------|---------------------------|
| lungime                              | 56 mm                     |
| numarul max. de pozitii de ventile   | 2                         |
| clasa de rezistenta la coroziune KBK | 3                         |
| greutate produs                      | 510 g                     |
| tip fixare                           | cu filet interior si bolt |
| racord pneumatic 1                   | G1/8                      |
| racord pneumatic 2                   | G1/8                      |
| racord pneumatic 3                   | G1/8                      |
| racord pneumatic 4                   | G1/8                      |
| racord pneumatic 5                   | G1/8                      |
| indicatie material                   | conform RoHS              |
