## servo motor EMMS-AS-190-S-HS-AM-S1 Part number: 1584923 Product to be discontinued

MS-AS-19U-S-NS-AM-S1
umber: 1584923
ct to be discontinued

Without gear unit.

## **Data sheet**

| Feature  | Value                                       |  |
|--|---|--|
| Ambient temperature                              | -10 40 °C                                   |  |
| Storage temperature                              | -20 60 °C                                   |  |
| Relative air humidity                            | 0 - 90 %                                    |  |
| Conforms to standard                             | IEC 60034                                   |  |
| Insulation protection class                      | F   |  |
| Rating class according to EN 60034-1             | S1  |  |
| Temperature monitoring                           | PTC resistor                                |  |
| Protection class                                 | IP65  |  |
| Electrical connector system                      | Plug  |  |
| Materials note                                   | Conforms to RoHS                            |  |
| Corrosion resistance classification CRC          | 2 - Moderate corrosion stress               |  |
| PWIS conformity                                  | VDMA24364-B2-L                              |  |
| Authorisation                                    | RCM Mark                                    |  |
|  | c UL us - Recognized (OL)                   |  |
| CE mark (see declaration of conformity)          | to EU directive for EMC                     |  |
|  | to EU directive low-voltage devices         |  |
|  | in accordance with EU RoHS directive        |  |
| UKCA marking (see declaration of conformity)     | To UK instructions for electrical equipment |  |
|  | To UK instructions for EMC                  |  |
|  | To UK RoHS instructions                     |  |
| Nominal operating voltage DC                     | 565 V                                       |  |
| Nominal voltage DC                               | 565 V                                       |  |
| Type of winding switch                           | Star inside                                 |  |
| Number of pole pairs                             | 6   |  |
| Standstill torque                                | 26.2 Nm                                     |  |
| Nominal torque                                   | 17.47 Nm                                    |  |
| Peak torque                                      | 80 Nm                                       |  |
| Nominal rotary speed                             | 3,000 1/min                                 |  |
| Max. speed                                       | 5,300 1/min                                 |  |
| Nominal motor power                              | 5,490 W                                     |  |
| Nominal motor current                            | 14.43 A                                     |  |
| Peak current                                     | 77.2 A                                      |  |
| Motor constant                                   | 1.211 Nm/A                                  |  |
| Voltage constant, phase-to-phase                 | 75.4 mVmin                                  |  |
| Phase-phase winding resistance                   | 0.283 Ohm                                   |  |
| Phase-phase winding inductance                   | 3.07 mH                                     |  |
| Overall mass moment of inertia at power take-off | 51.9 kgcm2                                  |  |
| Product weight                                   | 20,860 g                                    |  |
| Permissible axial shaft load                     | 250 N                                       |  |
| Permissible radial shaft load                    | 940 N                                       |  |
| Rotor position sensor                            | Absolute multi-turn encoder                 |  |
| Rotary position encoder interface                | EnDat 21                                    |  |
| Rotary position encoder measuring principle      | Inductive                                   |  |
| Rotor position encoder resolution                | 19 Bit                                      |  |
| MTTF, subcomponent                               | 76 years, rotary position encoder           |  |
| MTTFd, subcomponent                              | 152 years, rotary position encoder          |  |
| Energy efficiency                                | ENEFF (CN) / Class 2                        |  |
