## compact cylinder DMML-25-30-P-A Part number: 158593

**FESTO** 

Non-rotating, for proximity sensing, with elastic cushioning rings in end-positions, wide range of mounting options.

## **Data sheet**

| Feature                                    | Value                                                            |
|--------------------------------------------|------------------------------------------------------------------|
| Stroke                                     | 30 mm                                                            |
| Piston diameter                            | 25 mm                                                            |
| Cushioning                                 | P: Flexible cushioning rings/plates at both ends                 |
| Assembly position                          | Any                                                              |
| Mode of operation                          | double-acting                                                    |
| Design structure                           | Piston                                                           |
|                                            | Piston rod                                                       |
|                                            | Profile barrel                                                   |
| Position detection                         | For proximity sensor                                             |
| Variants                                   | Single-ended piston rod                                          |
| Protection against torque/guide            | Guide rod with yoke                                              |
| Operating pressure                         | 1 10 bar                                                         |
| Operating medium                           | Compressed air in accordance with ISO8573-1:2010 [7:4:4]         |
| Note on operating and pilot medium         | Lubricated operation possible (subsequently required for further |
|                                            | operation)                                                       |
| Corrosion resistance classification CRC    | 2 - Moderate corrosion stress                                    |
| Ambient temperature                        | -20 80 °C                                                        |
| Tightening torque of the drive mounting    | 8 Nm +10%                                                        |
| Theoretical force at 6 bar                 | 295 N                                                            |
| Theoretical force at 6 bar, return stroke  | 247 N                                                            |
| Theoretical force at 6 bar, advance stroke | 295 N                                                            |
| Mounting type                              | Optional                                                         |
|                                            | with through hole                                                |
|                                            | with internal (female) thread                                    |
| Pneumatic connection                       | M5                                                               |
| Material cover                             | Brass                                                            |
| Material seals                             | TPE-U(PU)                                                        |
| Material housing                           | Wrought Aluminium alloy                                          |
|                                            | Anodised                                                         |
| Material piston rod                        | High alloy steel, non-corrosive                                  |
