## **Compact cylinder ADNGF-20-10-PPS-A** Part number: 577208

## **Data sheet**

| Feature                                                      | Value                                                                                      |
|--------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| Stroke                                                       | 10 mm                                                                                      |
| Piston diameter                                              | 20 mm                                                                                      |
| Based on standard                                            | ISO 21287                                                                                  |
| Cushioning                                                   | Self-adjusting pneumatic end-position cushioning                                           |
| Mounting position                                            | optional                                                                                   |
| Design                                                       | Piston<br>Piston rod<br>Profile barrel                                                     |
| Position detection                                           | Via proximity switch                                                                       |
| Protection against torque/guide                              | Guide rod with yoke                                                                        |
| Operating pressure                                           | 0.19 MPa1 MPa<br>1.9 bar10 bar                                                             |
| Mode of operation                                            | Double-acting                                                                              |
| Operating medium                                             | Compressed air to ISO 8573-1:2010[7:4:4]                                                   |
| Note on operating and pilot medium                           | Lubricated operation possible (in which case lubricated operation will always be required) |
| Corrosion resistance class CRC                               | 2 - Moderate corrosion stress                                                              |
| LABS (PWIS) conformity                                       | VDMA24364-B1/B2-L                                                                          |
| Ambient temperature                                          | -20 °C80 °C                                                                                |
| Impact energy in end positions                               | 0.2 J                                                                                      |
| Cushioning length                                            | 3 mm                                                                                       |
| Theoretical force at 0.6 MPa (6 bar, 87 psi), return stroke  | 141 N                                                                                      |
| Theoretical force at 0.6 MPa (6 bar, 87 psi), advance stroke | 188 N                                                                                      |
| Moving mass                                                  | 67 g                                                                                       |
| Product weight                                               | 177 g                                                                                      |
| Pneumatic connection                                         | M5                                                                                         |
| Note on materials                                            | RoHS-compliant                                                                             |
| Material collar screws                                       | Steel                                                                                      |
| Material cover                                               | Anodised wrought aluminium alloy                                                           |
| Material seals                                               | TPE-U(PUR)                                                                                 |
| Material end plate                                           | Anodised wrought aluminium alloy                                                           |
| Material piston rod                                          | High-alloy steel                                                                           |

## **FESTO**

| Feature                  | Value                                   |
|--------------------------|-----------------------------------------|
| Material cylinder barrel | Smooth-anodised wrought aluminium alloy |
