## Pneumatic valve VUWS-LT25-M32U-M-N14

Part number: 8035219

## **Data sheet**

| Feature                            | Value                                                                                                          |
|------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Valve function                     | 3/2 open, single solenoid                                                                                      |
| Type of actuation                  | Pneumatic                                                                                                      |
| Valve size                         | 26.5 mm                                                                                                        |
| Standard nominal flow rate         | 1000 l/min                                                                                                     |
| pneumatic working port             | 1/4 NPT                                                                                                        |
| Operating pressure                 | -0.09 MPa1 MPa<br>-0.9 bar10 bar                                                                               |
| Design                             | Poppet seat                                                                                                    |
| Type of reset                      | Mechanical spring                                                                                              |
| Approval                           | c UL us - Recognized (OL)                                                                                      |
| Nominal size                       | 6.6 mm                                                                                                         |
| Exhaust-air function               | With flow control option                                                                                       |
| Sealing principle                  | Soft                                                                                                           |
| Mounting position                  | optional                                                                                                       |
| Manual override                    | None                                                                                                           |
| Type of piloting                   | Direct                                                                                                         |
| Pilot air supply                   | Internal                                                                                                       |
| Flow direction                     | Non-reversible                                                                                                 |
| lap                                | Underlap                                                                                                       |
| Pilot pressure                     | 0.25 MPa1 MPa<br>2.5 bar10 bar                                                                                 |
| Switching time off                 | 30 ms                                                                                                          |
| Switching time on                  | 7 ms                                                                                                           |
| Explosion protection               | The information in the certificate must be observed! Zone 1 (ATEX) Zone 2 (ATEX) Zone 21 (ATEX) Zone 22 (ATEX) |
| Operating medium                   | Compressed air to ISO 8573-1:2010 [7:4:4]                                                                      |
| Note on operating and pilot medium | Lubricated operation possible (in which case lubricated operation will always be required)                     |
| Vibration resistance               | Transport application test with severity level 2 to FN 942017-4 and EN 60068-2-6                               |
| Shock resistance                   | Shock test with severity level 2 to FN 942017-5 and EN 60068-2-27                                              |

| Feature                        | Value                                            |
|--------------------------------|--------------------------------------------------|
| Corrosion resistance class CRC | 2 - Moderate corrosion stress                    |
| LABS (PWIS) conformity         | VDMA24364-B1/B2-L                                |
| Media temperature              | -5 °C60 °C                                       |
| Pilot medium                   | Compressed air to ISO 8573-1:2010 [7:4:4]        |
| Ambient temperature            | -5 °C60 °C                                       |
| Product weight                 | 225 g                                            |
| Type of mounting               | Either:<br>On manifold rail<br>With through-hole |
| Breather connection            | Not ducted                                       |
| Pilot air port 10              | 10-32 UNF-2B                                     |
| Pneumatic connection, port 1   | 1/4 NPT                                          |
| Pneumatic connection, port 2   | 1/4 NPT                                          |
| Pneumatic connection, port 3   | 1/4 NPT                                          |
| Note on materials              | RoHS-compliant                                   |
| Material seals                 | HNBR<br>NBR<br>TPE-U(PU)                         |
| Material housing               | Die-cast aluminium<br>Painted                    |
| Material screws                | Galvanised steel                                 |
