## Push-in/threaded L-fitting, long QSLL-1/2-1/2-U Part number: 153681

rotatable by 360°, male thread with external hexagon. This product is only available if ordered from the Festo Corporation, USA. Type to be discontinued. Available until 2011.

## **Data sheet**

| Feature                                 | Value                             |  |
|---|-----------------------------------|--|
| Size                                    | Standard                          |  |
| Nominal size                            | 8.3 mm                            |  |
| Type of seal on screw-in stud           | coating                           |  |
| Assembly position                       | Any                               |  |
| Container size                          | 1                                 |  |
| Design structure                        | Push/pull principle               |  |
| Working pressure                        | -0.95 10 bar                      |  |
| Temperature dependent working pressure  | -0.95 10 bar                      |  |
| Operating medium                        | Filtered compressed air           |  |
|   | Vacuum                            |  |
| Corrosion resistance classification CRC | 1                                 |  |
| Ambient temperature                     | -10 60 °C                         |  |
| Authorization                           | Germanischer Lloyd                |  |
| Max. tightening torque                  | 30 Nm                             |  |
| Pneumatic connection                    | NPT1/2-14                         |  |
|   | for tubing, 1/2" outside diameter |  |
| color of release ring                   | Grey                              |  |
| Materials note                          | Conforms to RoHS                  |  |
| Materials information, housing          | PBT                               |  |
| Release ring material data              | POM                               |  |
| Materials information for tubing seal   | NBR                               |  |
| Hose clamping segment material data     | High alloy steel, non-corrosive   |  |
