## Swivel/linear unit DSL-16-100-270-P-S2-FF-KF Part number: 177175

For proximity sensing. Rotary and linear movement can be actuated simultaneously or independently of one another. Rotary movement of  $0^\circ$ - 270° infinitely adjustable.

## **Data sheet**

| Feature                                    | Value  |
|--|--|
| Cushioning angle                           | 2.6 deg  |
| Rotation angle adjustment range            | 270 deg  |
| Stroke                                     | 100 mm   |
| Piston diameter                            | 16 mm  |
| Swivel angle                               | 272 deg  |
| Cushioning                                 | P: Flexible cushioning rings/plates at both ends |
| Assembly position                          | Any  |
| Fine adjustment                            | 5 deg  |
| Mode of operation                          | double-acting                                    |
| Design structure                           | Rotary vane                                      |
| Position detection                         | For inductive sensors                            |
|  | For proximity sensor                             |
| Variants                                   | S2: through piston rod                           |
| Protection against torque/guide            | with ball-bearing guide                          |
| Operating pressure                         | 2.5 8 bar  |
| Max. impact speed                          | 500 mm/s   |
| Max. swivel frequency at 6 bar             | 2 Hz   |
| Operating medium                           | Dried compressed air, lubricated or unlubricated |
| Ambient temperature                        | -10 60 °C  |
| Cushioning length                          | 4.5 mm   |
| Torque at 6 bar                            | 1.25 Nm  |
| Theoretical force at 6 bar, return stroke  | 73.5 N   |
| Theoretical force at 6 bar, advance stroke | 103.5 N  |
| Permissible mass moment of inertia         | 0.000035 kgm2                                    |
| Additional weight per 10 mm stroke         | 33 g   |
| Basic weight for 0 mm stroke               | 700 g  |
| Product weight                             | 700 g  |
| Mounting type                              | Clamped in T-slot                                |
|  | with external (male) thread                      |
|  | Optional   |
| Pneumatic connection                       | M5   |
| Materials information for cover            | Wrought Aluminum alloy                           |
|  | Anodized   |
| Materials information for seals            | TPE-U(PU)  |
| Materials information, housing             | Wrought Aluminum alloy                           |
|  | Smooth anodized                                  |
| Materials information for piston rod       | Heat-treatment steel                             |
