FESTO

Firmware Update CHB-C-N

The firmware for CHB-C-N will be updated by FFT Festo Field Device Tool. FFT Version 2.5.3.4xxx or higher.

This software is available on "Support Portal" www.festo.com/sp

The FFT Festo Field Device Tool include all the available firmware files for the different Festo devices. Normally FFT will search on Festo server for latest firmware version.(Internet connection required) You can start the search process by clicking this Icon:

Remark:

If firmware file is not available on Support portal, it is possible to copy manually a firmware file, which may be delivered by Festo service, into the firmware repository.

The firmware must be available in "Firmware Repository" of FFT software directory structure:

C:\ProgramData\Festo\FestoFieldDeviceTool\FirmwareRepository\CHB-C-N\

3.6.1-chb-0-rev-f86328a0a483.chbf

Start the FFT software. Then the connected devices will be scanned. Do the following instructions:

FEST		Festo Field Device Tool			- = X
