## **FESTO**

## Input module VAEM-XA-E-8E-N-V Part number: 8196632

## **Data sheet**

| Feature  | Value  |
|--|--|
| Dimensions W x L x H   | 41.8 mm x 49.0 mm x 27.2 mm  |
| Diagnose per internal communication  | Short circuit/overload Power OUT PL  |
| Max. number of modules   | 6  |
| No. of inputs  | 8  |
| Input debounce time  | 3 ms   |
| Intrinsic current consumption at nominal operating voltage for electronics/sensors | typically 4 mA   |
| Max. number of inputs  | 8  |
| Nominal operating voltage DC for electronics/sensors                               | 24 V   |
| Power failure buffering  | 10 ms  |
| Switching level  | Signal 1: >= 11 V  |
| Fuse protection inputs (short circuit)   | Internal electronic fuse per module  |
| Behavior after end of overload of the sensor supply                                | Automatic return (default)   |
| Voltage drop of sensor supply  | 1 V  |
| Max. residual current of inputs per module   | 0.2 A  |
| Electrical isolation of inputs between channels                                    | no   |
| Contamination level  | 2  |
| Permissible voltage fluctuations for electronics/sensors                           | ± 25 %   |
| Permissible voltage fluctuations load  | ±10%   |
| CE marking (see declaration of conformity)   | As per EU EMC directive As per EU RoHS directive                                     |
| KC characters  | KC EMC   |
| Max. cable length  | 30 m inputs  |
| Vibration resistance   | Transport application test with severity level 2 as per FN 942017-4 and EN 60068-2-6 |
| Shock resistance   | Shock test with severity level 2 as per FN 942017-5 and EN 60068-2-27                |
| Corrosion resistance class (CRC)   | 1 - Low corrosion stress   |
| LABS (PWIS) conformity   | VDMA24364-B2-L   |
| Storage temperature  | -20 °C70 °C  |
| Relative air humidity  | 5 - 95 %   |
| Note regarding operating voltage   | SELV/PELV fixed power supplies required Note voltage drop                            |

| Feature                                       | Value                    |
|---|--------------------------|
| Degree of protection                          | IP65                     |
| Note on degree of protection                  | In mounted state         |
| Overvoltage category                          | II                       |
| Ambient temperature                           | -5 °C50 °C               |
| Certification                                 | RCM compliance mark      |
| Nominal altitude of use above sea level       | <= 2000 m NHN            |
| Product weight                                | 42 g                     |
| Input characteristics                         | as per EN 61131-2        |
| Input switching logic                         | NPN (negative switching) |
| Electrical connection                         | M8                       |
| Electrical connection 1, connection type      | Socket                   |
| Electrical connection 1, number of pins/wires | 3                        |
| Electrical connection 1, occupied pins/wires  | 24                       |
| Electrical connection 1, tightening torque    | 0.7 Nm                   |
| Electrical connection 1, type of mounting     | Screw-type lock          |
| Electrical connection 1, function             | Digital input            |
| Material of plug housing                      | PA                       |
| Max. tightening torque plug                   | 0.6 Nm                   |
| Seals material                                | NBR                      |
| Film material                                 | Polyester                |
| O-ring material                               | NBR                      |
| Note on materials                             | RoHS-compliant           |
