

Local controller DLP-VSE

Technical data

This local controller is a convenient manual control unit for actuating the process drives. Using a local controller, a pneumatic drive can assume the functionality of an electrical drive.

- Can be mounted directly on the drive or on a wall
- Emergency compressed air connection
- Safe thanks to its key-operated switch with removable key
- Large, long-life fluorescent display for the open/closed position of the process valve
- Operated on site or remotecontrolled

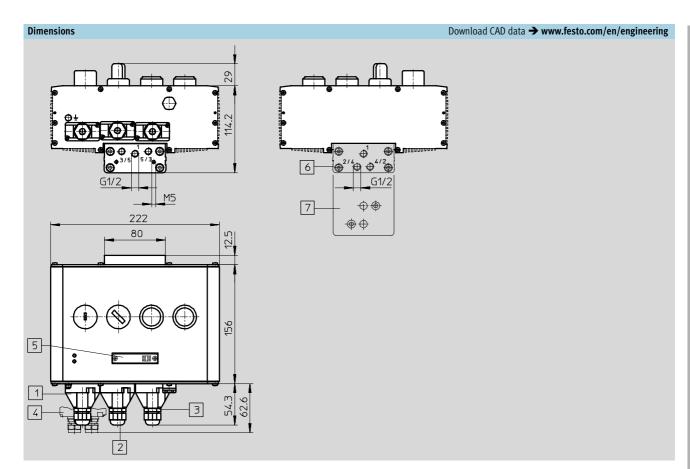

FESTO

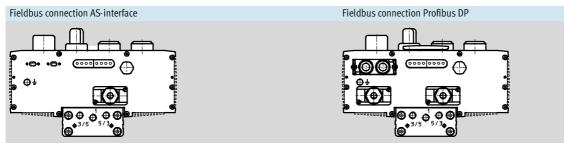

General technical data				
Operating pressure	[bar]	38		
Voltage supply	[V DC]	24 -15/+20%		
without AS-interface				
Voltage supply	[V DC]	26.5 31.6		
with AS-interface				
Ancillary voltage supply	[V DC]	24 -15/+20%		
with AS-interface				
Operating voltage	[V DC]	24 -15/+20%		
at the valve				
Duty cycle, solenoid coils	[%]	100		
Protection class		IP65		
		Plug connector when fully plugged-in or fitted with protective cover		

Ambient conditions				
Ambient temperature	[°C]	-5 +50		
		based on EN 60 654-1 class C1 (use in weather-protected areas)		
Optional ambient temperature	[°C]	-25 +55		
		to EN 60 654-1 class C2 (use in weather-protected areas)		
Relative air humidity	[%]	5 100 condensing		
Corrosion resistance class CRC ¹		3		

1) Corrosion resistance class 3 according to Festo standard 940 070 Components requiring higher corrosion resistance. External visible parts in direct contact with industrial atmospheres or media such as solvents and cleaning agents, with a predominantly functional requirement for the surface.
