

- Minimal dimensions
- Constant output pressure
- Constant differential pressure between the input and output
- Versions with or without pressure gauge
- With screw-in thread M5 ... R1/2 or push-in connector \varnothing 4 ... 12 mm

Pressure and differential pressure regulators

Features

FESTO

LRMA-...-QS

LR-...-QS

LRL-...-QS

LRLQ-...-QS

Pressure regulators LR, LRMA

-  - Flow rate
22 ... 127 l/min

- With threaded and push-in connector
- Screw-in thread
M5, R $\frac{1}{8}$, R $\frac{1}{4}$
- Push-in connector
for tubing O.D. 4 ... 8 mm
- Push-in connector, can be rotated
360°

The pressure regulator maintains an essentially constant output pressure on the secondary side independent of pressure fluctuations on the primary side and air consumption.

The primary pressure at the screw-in thread is reduced when air is exhausted from the QS push-in connector.

Differential pressure regulators LRL, LRLQ

-  - Flow rate
30 ... 760 l/min

- With threaded and push-in connector
- Screw-in thread
M5, R $\frac{1}{8}$, R $\frac{1}{4}$, R $\frac{3}{8}$, R $\frac{1}{2}$
- Push-in connector
for tubing O.D. 4 ... 12 mm
- Push-in connector, can be rotated
360°

The differential pressure regulator maintains a manually adjusted differential pressure between the primary pressure at the screw-in thread and the output pressure at the QS push-in connector.

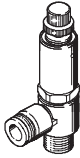

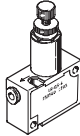

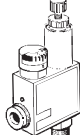

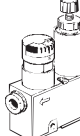

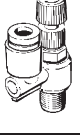

Pressure applied at the QS push-in connector can be exhausted with no change in pressure at the thread connection end thanks to an integrated non-return valve.

-  - Note

The differential pressure regulator has no exhaust, i.e. increasing secondary pressure cannot be reduced.

Function

-  - Flow rate
22 ... 127 l/min

- Minimal dimensions
- Constant output pressure
- Version without pressure gauge
- Screw-in thread M5 ... R $\frac{1}{4}$ or push-in connector \varnothing 4 ... 8 mm

General technical data		
Design	Directly actuated piston regulator with through pressure supply	
Regulating function	With secondary venting, output pressure constant	
Actuator lock	Knurled screw with lock nut	
Mounting position	Any	
With QS push-in connector and metric thread with sealing ring		
Type of mounting	Can be screwed in	
Materials	Housing	Polybutylene terephthalate
	Threaded plug	Nickel plated brass
With QS push-in connector and PTFE-coated pipe thread		
Type of mounting	Can be screwed in	
Materials	Housing	Polybutylene terephthalate
	Threaded plug	Nickel plated brass
	Threaded seal	Polytetrafluoroethylene
With QS push-in connector at both ends		
Type of mounting	Via through-holes	
Materials	Housing	Polybutylene terephthalate

Operating and environmental conditions		
Operating medium	Filtered compressed air, lubricated or unlubricated	
Input pressure	[bar]	0 ... 9
Pressure regulation range	[bar]	1 ... 8
Ambient temperature	[°C]	0 ... 60
