

Electrical connection technology, for AS-interface

Technical data – ASI-SS

- Configuration plug for master: the connector must be plugged into the master before the configuration process. The operating voltage can then be applied. If the plug is removed during operation of the master, the master configuration is stored in non-volatile memory.
- 2-pin

General technical data	
Type	ASI-SS-CONFIG
Mounting position	Any
Protection class	IP65
Material of contact	Bronze
Material of contact surface	Nickel-tin alloy
Material of housing	Polybuteneterephthalate
Operating temperature [°C]	-40 ... +85
