

- Electrically or pneumatically actuated valves
- With internal or external pilot air
- Pneumatic or mechanical reset

Specified types in accordance with ATEX directive for potentially explosive atmospheres

Accessories		
	Remarks	→ Page/Internet
1 End plate kit NEV	For sealing the manifold sub-bases	91
2 Push-in fitting QS	For connecting compressed air tubing with standard O.D.	quick star
3 Angle connection block NAW	For routing ports 2 and 4 to the front	90
4 Manifold sub-base NAV	With ports 2 and 4 underneath	90
5 Isolating disc NSC	For sealing the common lines 1, 3, 5 between end plates and manifold sub-bases or between 2 manifold sub-bases, e.g. for different working pressures	92
6 Intermediate plate NZV	For connecting manifold sub-bases of different sizes	94
7 Manifold sub-base for angle connection NAVW	With ports 2 and 4 either underneath or to the front	91
8 Silencers	For fitting in exhaust ports	u
9 Solenoid valve	Port pattern to ISO 5599-1, corresponding solenoid coils → 100	2
10 Blanking plate NDV	For sealing unused manifold sub-bases	92
11 Throttle plate GRO	For ISO size 1, 2 and 3 with integrated exhaust air restrictors at ports 3 and 5. The throttle plate is mounted between the valve and the individual sub-base/manifold sub-base	95
12 Intermediate pressure regulator plate LR-ZP	For ISO size 1, 2 and 3 for regulating the pressure from 0 to 10 bar according to the supply pressure. The intermediate pressure regulator plate is mounted between the valve and the individual sub-base/manifold sub-base	96

Technical data – 5/2-way valves, double solenoid

Flow rate

1200 ... 4500 l/min

Voltage

24 V DC

General technical data				
ISO size		1	2	3
Valve function		5/2-way, double solenoid		
Constructional design		Piston spool		
Sealing principle		Soft		
Actuation type		Electrical		
Type of pilot control		Piloted		
Pilot air supply		Internal or external		
Direction of flow		Non-reversible		
Exhaust function		With flow control		
Manual override		Via accessory, detenting		
Type of mounting		Via through-holes		
Mounting position		Any		
Nominal size	[mm]	8	11	14.5
Standard nominal flow rate	[l/min]	1200	2300	4500
Grid dimension	[mm]	43	56	71
Pneumatic connection on sub-base		G $\frac{1}{4}$	G $\frac{3}{8}$	G $\frac{1}{2}$
Product weight	[g]	600	770	1080
Noise level	[dB (A)]	85		

Operating and environmental conditions				
Operating medium		Filtered compressed air, lubricated or unlubricated Vacuum		
Operating pressure	Internal pilot air supply	[bar]	2 ... 10	
	External pilot air supply	[bar]	-0.9 ... +16	
Pilot pressure		[bar]	2 ... 10	
Ambient temperature		[°C]	-5 ... +50	
Temperature of medium		[°C]	-5 ... +50	

Valve response times [ms]

Pneumatic valves, ISO 5599-1

Peripherals overview

Accessories		
	Brief description	→ Page/Internet
1 End plate kit NEV	For sealing the manifold sub-bases	91
2 Push-in fitting QS	For connecting compressed air tubing with standard O.D.	quick star
3 Angle connection block NAW	For routing ports 2 and 4 to the front	90
4 Manifold sub-base NAV	With ports 2 and 4 on the bottom	90
5 Isolating disc NSC	For sealing the common lines 1, 3, 5 between end plates and manifold sub-bases or between 2 manifold sub-bases, e.g. for different working pressures	92
6 Intermediate plate NZV	For connecting manifold sub-bases of different sizes	94
7 Manifold sub-base for angle connection NAVW	With ports 2 and 4 either on the bottom or the front	91
8 Silencer	For fitting in exhaust ports	u
9 Pneumatic valve	Port pattern to ISO 5599-1	6
10 Blanking plate NDV	For sealing unused manifold sub-bases	92
11 Throttle plate for ISO size 1, 2 and 3 GRO	With integrated exhaust air restrictors at port 3 and 5. The throttle plate is mounted between the valve and the individual sub-base/manifold sub-base	95
12 Intermediate pressure regulator plate for ISO size 1, 2 and 3 LR-ZP	For regulating the pressure from 0 to 12 bar according to the supply pressure. The intermediate pressure regulator plate is mounted between the valve and the individual sub-base/manifold sub-base	96

Port pattern on sub-base to ISO 5599-1

Defined interfaces between valve and sub-base

Product Range and Company Overview

A Complete Suite of Automation Services

Our experienced engineers provide complete support at every stage of your development process, including: conceptualization, analysis, engineering, design, assembly, documentation, validation, and production.

Custom Automation Components
Complete custom engineered solutions

Custom Control Cabinets
Comprehensive engineering support and on-site services

Complete Systems
Shipment, stocking and storage services

The Broadest Range of Automation Components

With a comprehensive line of more than 30,000 automation components, Festo is capable of solving the most complex automation requirements.

Electromechanical
Electromechanical actuators, motors, controllers & drives

Pneumatics
Pneumatic linear and rotary actuators, valves, and air supply

PLCs and I/O Devices
PLC's, operator interfaces, sensors and I/O devices

Supporting Advanced Automation... As No One Else Can!

Festo is a leading global manufacturer of pneumatic and electromechanical systems, components and controls for industrial automation, with more than 12,000 employees in 56 national headquarters serving more than 180 countries. For more than 80 years, Festo has continuously elevated the state of manufacturing with innovations and optimized motion control solutions that deliver higher performing, more profitable automated manufacturing and processing equipment. Our dedication to the advancement of automation extends beyond technology to the education and development of current and future automation and robotics designers with simulation tools, teaching programs, and on-site services.

Quality Assurance, ISO 9001 and ISO 14001 Certifications

Festo Corporation is committed to supply all Festo products and services that will meet or exceed our customers' requirements in product quality, delivery, customer service and satisfaction.

To meet this commitment, we strive to ensure a consistent, integrated, and systematic approach to management that will meet or exceed the requirements of the ISO 9001 standard for Quality Management and the ISO 14001 standard for Environmental Management.
