

## Valve series VOFC

**FESTO**

# Solenoid valves VOFC

Key features

**FESTO**

## General information

- The valves in the VOFC series are special 3/2-way and 5/2-way valves for process automation, for use within chemical and petrochemical systems, where they are frequently used as pilot valves for flaps and drives. Their sturdy design and high resistance to corrosion make these valves suitable for outdoor use under harsh ambient conditions.
- The Namur flange pattern makes the solenoid valves especially suitable for quarter-turn actuators. The integrated spring chamber ventilation protects quarter-turn actuators with spring return (single-acting cylinders and drives) against contaminated ambient air and weather influences such as rain.
- With German Technical Control Board (TÜV) report up to AK7/SIL-4.

## Function, design

- 3/2-way or 5/2-way, single solenoid or double solenoid, depending on type.
- Piloted piston spool and piston poppet valves.

## Sturdy

- The surface of the valve housing is treated with hard Ematal. This treatment involves converting the aluminium surface into a very hard aluminium oxide layer with titanium oxide intercalations and gives the valves very high resistance to wear and abrasion as well as first-class sliding qualities. This provides optimum protection against atmospheric and chemical influences.
- You can find information on the media resistance of the product at [www.festo.com](http://www.festo.com).

## Flexible in function

- The valve is easily modified for internal or external pilot air using a screw.
- Depending on the required function, the pressure connection is established independently of the working pressure as a pressure or vacuum connection.

## Economical

- One type, one part number for two functions.
- Internal and external pilot air function integrated in one valve.
- One valve, two connection options.
- Port pattern to Namur for direct mounting of a drive as well as G and NPT threaded connections.

## VOFC – Basic valves

- 3/2-way, 5/2-way valves
- Connections G $\frac{1}{4}$ , NPT $\frac{1}{4}$ , G $\frac{1}{2}$
- Namur port pattern, optional with P channel

→ 6

## VACC-S13 – Solenoid coils

- AC and DC voltage 24V, 110V, 230V
- Type of explosion protection Ex emb II, Ex ia IIC

→ 32

## VOFC – Solenoid valves

- Combination of basic valve VOFC and S13 coil VACC
- 3/2-way, 5/2-way valves
- Type of explosion protection Ex emb II

→ 24

## VOFC – Accessories

- Throttle plate
- Mounting plate
- Adapter with filter
- Hand lever

→ 37

# Solenoid valves VOFC

Peripherals overview

FESTO

Mounting attachments and accessories		
	Brief description	→ Page/Internet
1	Solenoid coil VACC-S13	Standard magnet
2	Solenoid coil VACC-S13-me	Ex-me magnet
3	Solenoid coil VACC-S13-A	Ex-ia magnet
4	Adapter NPFV-AF-G14-N14-MF	Adapter from G $\frac{1}{4}$ to NPT $\frac{1}{4}$ , with filter
5	Adapter NPFV-AF-G14-G14-MF	Adapter from G $\frac{1}{4}$ to G $\frac{1}{4}$ , with filter
6	Exhaust protection VABD-D3-SN-G14	Exhaust protection to IP65. The spring chamber of drive 8 solenoid valve is protected against the ingress of aggressive ambient air and water by the one-way flow control system
7	Flow control plate VABF-S7-F1B1P2-F	Exhaust air flow control plate for Namur interface for installation between the solenoid valve and double-acting drives
8	Flow control plate VABF-S7-F1B5P1-F	Exhaust air flow control plate for Namur interface for installation between the solenoid valve and single-acting drives
9	Connection plate kit VABF-S7-S-G14	Mounting plate for attaching the valve to a Namur rib
10	Mounting plate VAME-S7-P	Mounting plate for attaching the valve to a Namur rib
11	Mounting bracket VAME-S7-Y	Alternative option (instead of screw) of attaching the valve to a Namur rib with the help of a mounting bracket

1) Corrosion resistance class 4 according to Festo standard 940 070

Components subject to particularly high corrosion stress. Parts used with aggressive media, e.g. in the food or chemical industry. These applications should be supported with special tests with the media if required.

- 1) Corrosion resistance class 3 according to Festo standard 940 070  
Components subject to high corrosion stress. External visible parts in direct contact with industrial atmospheres or media such as solvents and cleaning agents, with a predominantly functional requirement for the surface.

## Connection plate kit

Material:  
Wrought aluminium alloy  
Contains paint-wetting impairment  
substances, RoHS-compliant

Dimensions [mm] and ordering data															
B1	B2	B3	D1	D2	H1	H2	L1	L2	L3	L4	L5	L6	CRC <sup>1)</sup>	Part No.	Type

- 1) Corrosion resistance class 3 according to Festo standard 940 070  
Components subject to high corrosion stress. External visible parts in direct contact with industrial atmospheres or media such as solvents and cleaning agents, with a predominantly functional requirement for the surface.

# Solenoid valves

Accessories

FESTO

## Mounting bracket

Material:  
Wrought aluminium alloy  
Contains paint-wetting impairment  
substances, RoHS-compliant

Dimensions [mm] and ordering data								Part No.	Type
B1	B2	B3	D1	H1	H2	L1	CRC <sup>1)</sup>		
45/65	12	5	M5	50	41	20	3	563 403	VAME-S7-Y

- 1) Corrosion resistance class 3 according to Festo standard 940 070  
Components subject to high corrosion stress. External visible parts in direct contact with industrial atmospheres or media such as solvents and cleaning agents, with a predominantly functional requirement for the surface.

## Adapter with filter

Note on materials:  
Contains paint-wetting impairment  
substances, RoHS-compliant

Dimensions [mm] and ordering data								Part No.	Type
D1	D2	D3	D4	L1	L2	$\approx \varnothing 1$	CRC <sup>1)</sup>		
NPT $\frac{1}{4}$	6	G $\frac{1}{4}$	18	29	10	19	1	563 397	NPFV-AF-G14-N14-MF
G $\frac{1}{4}$	6	G $\frac{1}{4}$	18	29	10	19	1	563 398	NPFV-AF-G14-G14-MF

- 1) Corrosion resistance class 1 according to Festo standard 940 070  
Components subject to low corrosion stress. Transport and storage protection. Parts that do not have primarily decorative surface requirements, e.g. in internal areas that are not visible or behind covers.

# Solenoid valves

Accessories

FESTO

## Exhaust protection

Material:

Ethylene propylene rubber  
Contains paint-wetting impairment  
substances, RoHS-compliant

Dimensions [mm] and ordering data

## Product Range and Company Overview

### A Complete Suite of Automation Services

Our experienced engineers provide complete support at every stage of your development process, including: conceptualization, analysis, engineering, design, assembly, documentation, validation, and production.

**Custom Automation Components**  
Complete custom engineered solutions

**Custom Control Cabinets**  
Comprehensive engineering support and on-site services

**Complete Systems**  
Shipment, stocking and storage services

### The Broadest Range of Automation Components

With a comprehensive line of more than 30,000 automation components, Festo is capable of solving the most complex automation requirements.

**Electromechanical**  
Electromechanical actuators, motors, controllers & drives

**Pneumatics**  
Pneumatic linear and rotary actuators, valves, and air supply

**PLCs and I/O Devices**  
PLC's, operator interfaces, sensors and I/O devices

### Supporting Advanced Automation... As No One Else Can!

Festo is a leading global manufacturer of pneumatic and electromechanical systems, components and controls for industrial automation, with more than 12,000 employees in 56 national headquarters serving more than 180 countries. For more than 80 years, Festo has continuously elevated the state of manufacturing with innovations and optimized motion control solutions that deliver higher performing, more profitable automated manufacturing and processing equipment. Our dedication to the advancement of automation extends beyond technology to the education and development of current and future automation and robotics designers with simulation tools, teaching programs, and on-site services.

### Quality Assurance, ISO 9001 and ISO 14001 Certifications

Festo Corporation is committed to supply all Festo products and services that will meet or exceed our customers' requirements in product quality, delivery, customer service and satisfaction.

To meet this commitment, we strive to ensure a consistent, integrated, and systematic approach to management that will meet or exceed the requirements of the ISO 9001 standard for Quality Management and the ISO 14001 standard for Environmental Management.
