

# Modular controllers CECX

# Modular controllers CECX

Key features

At a glance	
<b>Versatile</b>	<b>Economical</b>
The controller is functionally designed as a master and motion controller. It is a powerful control unit that can simultaneously execute both comprehensive PLC functions and multi-axis movements with interpolation.	The modular structure offers the right solutions for all requirements. It has a high component density, is easy to use and can be mounted on H-rails. It is fully compatible with all products from Festo and other manufacturers.
<b>Controlling electric axes</b>	<b>Flexible</b>
Simple commissioning, programming and servicing: With the SoftMotion module, the CoDeSys software offers a powerful programming environment for controlling all electric axes with CANopen fieldbus connection. Additionally available: module libraries, configuration tools and drivers.	Programming to the IEC 61131-3 standard means the CECX is flexible and open for all types of control tasks. Numerous communication modules (PROFIBUS, CANopen, Ethernet) guarantee compatibility with other systems.
<b>Reliable</b>	<b>Product features</b>
It is certified to CE, UL/CSA, produced based on global experience in front end automation and uses standard hardware and CoDeSys standard software.	<ul style="list-style-type: none"> <li>• Two product versions                             <ul style="list-style-type: none"> <li>– Modular master controller with CoDeSys</li> <li>– Motion controller with CoDeSys and SoftMotion</li> </ul> </li> <li>• Easy configuration</li> <li>• Automatic module detection</li> <li>• Search function for finding controllers in the network</li> <li>• DHCP-compatible</li> <li>• Automatic transfer of the communication settings to the project</li> </ul>

# Modular controllers CECX

Technical data

**Controller CECX-X-C1**  
Modular master controller with CoDeSys

**Controller CECX-X-M1**  
Motion controller with CoDeSys and SoftMotion

The controller is the central module in the modular control unit. It provides the resources for executing the application software.

The controller has three plug-in slots for optional modules to effect the following connections for interfaces:

- CAN bus interface
- Ethernet electrical interface
- RS 232 serial interface

The controller is equipped with the optional module for the Ethernet electrical interface by default.

## Input/output module, digital CECX-D-...E8A

There are 6 or 8 digital inputs and 8 digital outputs available for processing digital process signals.

The following functions are available:

- Address setting
- Short circuit monitoring for outputs
- Debounce function for inputs
- Interrupt function DI0 and DI1

General technical data		
Operating voltage range	[V DC]	19.2 ... 30
Electrical connection technology for I/O		Socket strip, grid 5.08 mm
Power consumption at 5 V	[W]	0.4
Power consumption at 24 V	[W]	1.9
Resistance to shock		EN 60068-2-27 EA
		15 g, 11 ms (half sine)
Resistance to vibration		EN 60068-2-6-FC
		5 ... 9 Hz, 3.5 mm

## Output module, analogue CECX-A-4A-V

There are 4 analogue voltage outputs available for processing analogue process signals.

The following function is available:

- Sensor failure detection

General technical data	
Electrical connection technology for I/O	Socket strip, grid 5.08 mm
Power consumption at 5 V [W]	0.3
Power consumption at 24 V [W]	1.9
Resistance to shock	EN 60068-2-27 EA 15 g, 11 ms (half sine)
Resistance to vibration	EN 60068-2-6-FC 5 ... 9 Hz, 3.5 mm 9 ... 150 Hz, 1g
Protection class	IP20
Electrical protection class	III
Product weight [g]	132
Materials	
Note on materials	Contains PWIS (paint-wetting impairment substances) RoHS-compliant

Technical data – Interfaces	
Analogue outputs	
Number	4
Resolution [bit]	12
Max. load resistance [Ω]	≥ 1,000
Signal range [V]	±10
Value of the least significant bit (LSB) [mV]	5.32
Conversion time [ms]	1
Absolute accuracy at 25 °C [%]	±0.15

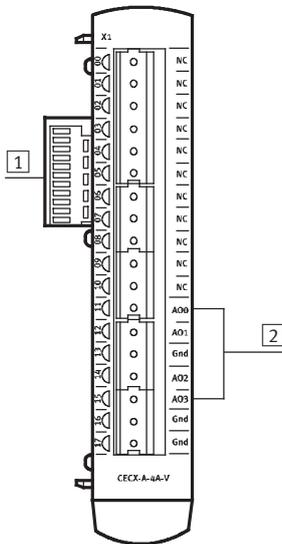

Operating and environmental conditions	
Ambient temperature [°C]	+5 ... +55
Storage temperature [°C]	-40 ... +70
Relative air humidity [%]	10 ... 95
Certification	cULus listed (OL)

## Input module, analogue

### CECX-E-4E-T-P1

There are 4 temperature inputs available for the temperature sensor PT 100.

The following function is available:

- 2-wire and 4-wire connection

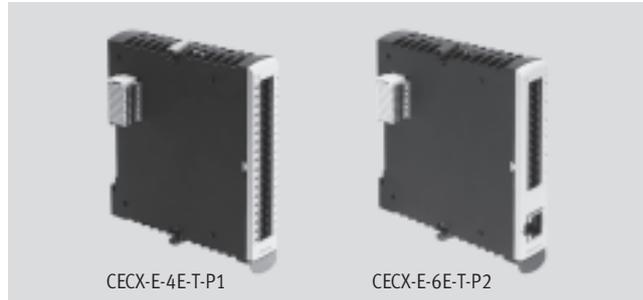

## Input module, analogue

### CECX-E-6E-T-P2

There are 6 temperature inputs available for the thermoelement type J, K and L.

The following function is available:

- Internal and external cold junction compensation

General technical data		CECX-E-4E-T-P1	CECX-E-6E-T-P2
Electrical connection technology for I/O		Socket strip, grid 5.08 mm	Gold contacts
Power consumption at 5 V	[W]	0.3	0.6

## Encoder interface

### CECX-C-2G2

The following functions are available:

- Displacement measurement: incremental/decremental counter (displacement measurement) using A and B track, 1-way, 2-way, 4-way evaluation, 32-bit resolution
- Pulse counter on track A, 32-bit resolution
- Pulse counter on track A with direction evaluation for track B, 32-bit resolution
- Speed measurement by means of sampling with internal time basis

- Shaft encoder monitoring using zero-track information
- Counter reading latch function via an external latch input
- Counter reading latch function via zero pulse
- Sensor rupture monitoring for tracks A, B and zero

## Encoder interface

### CECX-C-2G1

The following function is available:

- Power/receive status display
- Binary/grey signal range

General technical data		CECX-C-2G2	CECX-C-2G1
Operating voltage range	[V DC]	19.2 ... 30	
Electrical connection technology for I/O		Socket strip, grid 5.08 mm

	RS 422-A		
	1	GND	Ground
	2	Term B	Terminating resistor
	3	B'	Receive +
	4	B	Transmit +
	5	GND	Ground
	6	n.c.	Not connected
	7	Term A	Terminating resistor
	8	A'	Receive –
	9	A	Transmit –
	Housing	Screened	Screened

	RS 232 serial interface	553855	CECX-C-S1
	RS 485-A/422-A serial interface	553979	CECX-S-S4

# Modular controllers CECX

Accessories

**FESTO**

Ordering data			
	Brief description	Part No.	Type
<b>Plug</b>			
	Plug for peripheral modules, 2-pin	553857	NECC-L1G2-C1
	Plug for peripheral modules, 4-pin	553858	NECC-L1G4-C1
	Plug for peripheral modules, 6-pin	553859	NECC-L1G6-C1
	Plug for peripheral modules, 8-pin	553860	NECC-L1G8-C1
	Plug for peripheral modules, 18-pin	553861	NECC-L1G18-C1
	Plug for PROFIBUS interface, Sub-D, 9-pin, without terminating resistor	533780	FBS-SUB-9-WS-PB-K
	Plug for CAN-Bus interface, Sub-D, 9-pin, without terminating resistor	533783	FBS-SUB-9-WS-CO-K
<b>Cable</b>			
	Cable for connecting an FED via RS 485 Cable length 2.5 m Straight socket, Sub-D, 15-pin Straight socket, Sub-D, 9-pin	563782	NEBC-S1G15-K-2.5-N-B-S1G9-V
