

# Plastic-coated metal tube PM

Technical data

## Plastic-coated metal tube PM

-Q- Ambient temperature  
-29 ... +65 °C

The tube PM has the corrosion resistance of plastic and the deformation resistance of metal. It can be bent straight and reshaped several times without a pipe-bending device and without being damaged.

± Temperature-dependent operating pressure  
-0.95 ... +30 bar

Operating and environmental conditions		
Temperature-dependent operating pressure	[bar]	-0.95 ... +30 → graph
Operating medium		Compressed air according to ISO 8573-1:2010 [7:-:-]
Ambient temperature	[°C]	-29 ... +65

### Note

The plastic-coated metal tube PM is printed with "10 bar at RT". This specification of the maximum operating pressure at room temperature (RT) is based on using the tube in combination with a push-in fitting from Festo.

When using a push-in fitting, the bending radius must be followed by a straight piece of tube with a length of approx. 20 mm.

### Operating pressure p as a function of temperature t

### Possible fittings

Push-in fitting QS, Quick Star<sup>1)</sup>  
→ Internet: qs

1) Note the operating range of the push-in fittings

### Accessories

Pipe/tubing cutter ZRS  
→ Internet: tools

Materials	
Housing	Wrought aluminium alloy, PE
Note on materials	RoHS-compliant Free of copper and PTFE

Dimensions and ordering data							
O.D.	I.D.	Bending radius relevant for flow rate	Weight	Colour	Part No.	Type	PU <sup>1)</sup>
[mm]	[mm]	[mm]	[kg/m]				[m]
6	3.92	19	0.024	Black	9084	PM-4	50
8	5.2	25	0.032	Black	9087	PM-6	50

# Product Range and Company Overview

## A Complete Suite of Automation Services

Our experienced engineers provide complete support at every stage of your development process, including: conceptualization, analysis, engineering, design, assembly, documentation, validation, and production.

**Custom Automation Components**  
Complete custom engineered solutions

**Custom Control Cabinets**  
Comprehensive engineering support and on-site services

**Complete Systems**  
Shipment, stocking and storage services

## The Broadest Range of Automation Components

With a comprehensive line of more than 30,000 automation components, Festo is capable of solving the most complex automation requirements.

**Electromechanical**  
Electromechanical actuators, motors, controllers & drives

**Pneumatics**  
Pneumatic linear and rotary actuators, valves, and air supply

**PLCs and I/O Devices**  
PLC's, operator interfaces, sensors and I/O devices

## Supporting Advanced Automation... As No One Else Can!

Festo is a leading global manufacturer of pneumatic and electromechanical systems, components and controls for industrial automation, with more than 12,000 employees in 56 national headquarters serving more than 180 countries. For more than 80 years, Festo has continuously elevated the state of manufacturing with innovations and optimized motion control solutions that deliver higher performing, more profitable automated manufacturing and processing equipment. Our dedication to the advancement of automation extends beyond technology to the education and development of current and future automation and robotics designers with simulation tools, teaching programs, and on-site services.

## Quality Assurance, ISO 9001 and ISO 14001 Certifications

Festo Corporation is committed to supply all Festo products and services that will meet or exceed our customers' requirements in product quality, delivery, customer service and satisfaction.

To meet this commitment, we strive to ensure a consistent, integrated, and systematic approach to management that will meet or exceed the requirements of the ISO 9001 standard for Quality Management and the ISO 14001 standard for Environmental Management.
