

**Compact Vision System SBOC-M**

# Compact Vision System SBOC-M

Key features

FESTO

## Problem description

Modern automation systems are for the most part designed for high production speeds which the human eye has trouble following.

Disadvantage of this high speed: Fitters and service employees cannot detect errors in the motion sequence and their causes straight away.

It is also becoming increasingly difficult to set the system parameters to their optimum values.

## Typical applications

Mobile deployment of the high-speed camera for service and commissioning to increase the productivity and availability of automation systems

- Cycle time reduction through pinpointing of idle periods in motion sequences
- Optimum harmonisation of the travel times of individual axes in multi-axis systems, localisation of critical movements
- Time-synchronised visualisation of movement processes from several sides on a PC for greater ease of handling
- Localisation of unwanted vibrations which have a negative effect on the repetition accuracy of movement processes and can cause premature material fatigue

Stationary mounting of the high-speed camera to increase the availability of automation systems

- Continuous recording of processes in the ring buffer of the camera
- If a fault occurs, recording is stopped by an external signal. The case history of the fault is then stored in the camera, thus permitting an analysis of the cause

## Interfaces

- 1 Ethernet connection
- 2 Power supply and inputs/outputs
- 3 Status LEDs:
  - A Operating system
  - B Ethernet traffic
  - C Recording
  - D Recording status

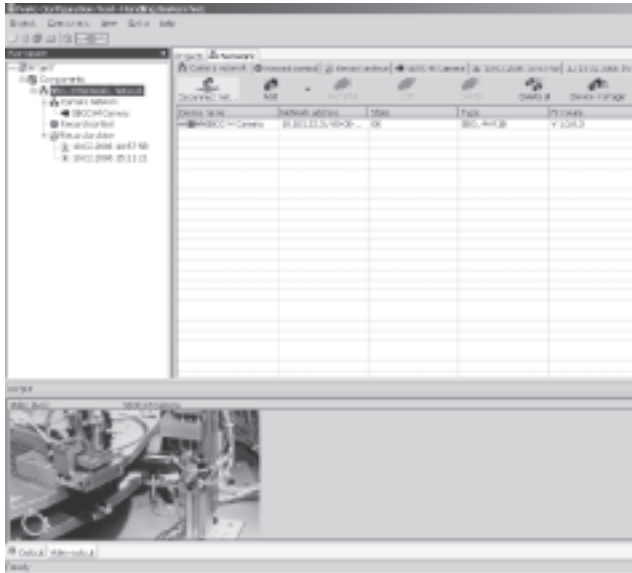

# Compact Vision System SBOC-M

Key features

## FCT software with SBO.. Network plug-in

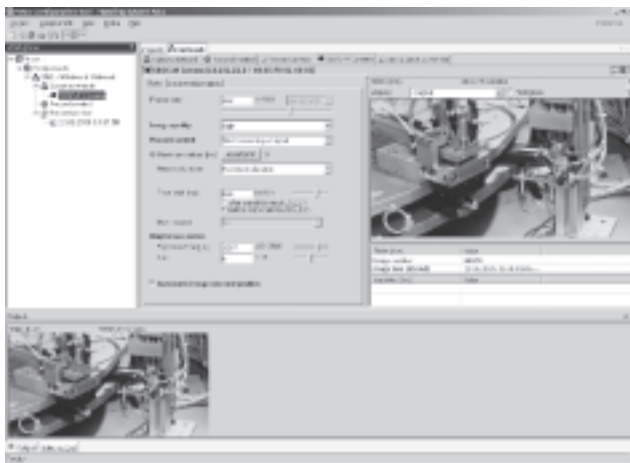

### Configuring a camera network

The "SBO..-M Network" is a plug-in for the Festo configuration tool (FCT for short). It provides the following functions:

- Configuration and commissioning of a camera network with any desired number of Compact Vision Systems of the type SBOC-M
- Creation of time-synchronised recordings using all devices in the camera network in order to record a scene from various angles, for example

### Setting the camera

Using the live pictures from the camera, the lens can be set and parameters such as exposure time, frames per second, recording duration and picture quality, for example, adjusted.

With the parameters you can also define what is to happen when a trigger signal (edge change of an external 24 V signal) occurs:

- Start the recording
- Stop the recording
- Record only one picture

Time delays between trigger signal and start of recording or stop recording as well as recording several films or pictures in the camera memory (multi-recording) can also be determined in a user-friendly manner.

### Recording control

Recording can be started once the camera has been set up. You can choose whether the camera should wait for the occurrence of an external trigger condition, start recording directly following initialisation or store the pictures sent via Ethernet on a PC without buffering them in the camera. The PC can be removed once recording has been started in "Wait for trigger

signal" mode. The camera operates automatically and waits for the trigger condition to occur. Recorded sequences are stored in the internal memory of the respective camera and can be transmitted to the FCT software once a connection has been re-established with a PC. The sequences are archived and can be analysed on the PC.

Peripherals overview

Accessories	Brief description	→ Page/Internet
<b>Compact Vision System</b>		
1 SBOC-M-R1B-H	For standard lens with C mount connection	6
<b>Cable with socket</b>		
2 SBOA-K30E-M12S	Ethernet diagnostic cable	12
3 SIM-M12-8GD-...-PU	For supplying the operating voltage	
<b>Lens</b>		
- SASF-C-L-F...	Focal distance 6 ... 35 mm	11
<b>Mounting components</b>		
4 Adapter kit SBOA-HMSV-39	With screw-on adapter plate	8
5 Adapter kit SBOA-HMSV-40	Without screw-on adapter plate	
6 Adapter kit SBOA-HMSV-41	With female thread G $\frac{1}{4}$ for mounting on commercially available tripods	
- Adapter SBOL-C-5	5 mm spacer ring (CS mount to C mount)	8

Technical data

-  Voltage  
24 V DC

-  Temperature range  
-10 ... +50 °C

General technical data		
Type		SBOC-M-R1B-H
Sensor resolution	[pixels]	640 x 480 (VGA)
Length	[mm]	139.4
Width	[mm]	45
Height	[mm]	45
Exposure time	[µs]	1 ... 1,000,000
Frame rate (full image)	[fps]	241
Sensor type		Monochrome
Lens mounting		CS mount (C mount with lens protective tube)
Operating distance	[mm]	Dependent on the lens selected
Field of vision	[mm]	Dependent on the lens selected

Electrical data		
Nominal operating voltage	[V DC]	24
Permissible voltage fluctuations	[%]	±10
Current consumption with load-free outputs	[mA]	120
Max. residual current	[A]	1.5 at the 24 V outputs
Protection class		IP65, IP67
Ethernet interface		
Bus interface		IEEE802.3U (100BaseT)
Connection technology		Plug M12
Transmission speed	[Mbps]	100
Supported protocols		TCP/IP

Operating and environmental conditions		
Ambient temperature	[°C]	-10 ... +50
Storage temperature	[°C]	-10 ... +60
Ambient conditions		Screened from extreme external light sources Cleanest possible ambient air
CE mark (see declaration of conformity) <sup>1)</sup>		To EU EMC Directive
Certification		c UL us - Recognized (OL) C-Tick

1) For information about the applicability of the component see the manufacturer's EC declaration of conformity at: [www.festo.com](http://www.festo.com) → Support → User documentation.  
If the component is subject to restrictions on usage in residential, office or commercial environments or small businesses, further measures to reduce the emitted interference may be necessary.

## Vision system

### SBOA-M-SYSTAINER

Systainer with Compact Vision System SBOC-M-R1B and accessories for mains voltage 230 V

Note on materials:

Contains PWIS (paint-wetting impairment substances)

Ordering data			
Contents	Pieces	Part No.	Type
Compact Vision System SBOC-M-R1B, without protective tube	1	543408	SBOA-M-SYSTAINER
Zoom lens, focal depth 10 ... 40 mm, CS mount	1		
Adapter kit SBOA-HMSV-41 for mounting on commercially available tripods	1		
Tripod for camera and lighting	2		
Ethernet diagnostic cable SBOA-K30E-M12S	1		
Crossover patch cable	1		
Coupler, RJ45	1		
System light 1,000 W/75 h, with tilting head and four-way folding frame	1		
Spare light bulb, U-shaped halogen lamp, 1,000 W/75 h, 230 V	1		
Manual cable drum	1		
Trigger with pushbutton and extension cable	1		
Power supply for camera/power supply unit	1		
CD-ROM with FCT configuration package and documentation	1		

## Vision system

### SBOA-M-SYSTAINER-110V

Systainer with Compact Vision System SBOC-M-R1B and accessories for mains voltage 110 V

Note on materials:

Contains PWIS (paint-wetting impairment substances)

Ordering data			
Contents	Pieces	Part No.	Type
Compact Vision System SBOC-M-R1B, without protective tube	1	572909	SBOA-M-SYSTAINER-110V
Zoom lens, focal depth 10 ... 40 mm, CS mount	1		
Adapter kit SBOA-HMSV-41 for mounting on commercially available tripods	1		
Tripod for camera and lighting	2		
Ethernet diagnostic cable SBOA-K30E-M12S	1		
Crossover patch cable	1		
Coupler, RJ45	1		
System light incl. plug for USA, 850 W/75 h, with tilting head and four-way folding frame	1		
Spare light bulb, U-shaped halogen lamp, 850 W/110 V	1		
Trigger with pushbutton and extension cable	1		
Power supply for camera/power supply unit with plug-in adapter for USA	1		
CD-ROM with FCT configuration package and documentation	1
