

Classic Tiger Series Power Valves

5/2 - 5 Ported, 4 Way, 2 Position Valves, G 1/8 and 1/8" NPT

Double Pilot Valve

Detented, Manual Override

Type JH-5-1/8

JH-5-1/8-NPT

The valve is shifted by alternating pneumatic pressure at ports 14 and 12. After the signal is removed, the valve maintains its shifted position until a counter-signal is received.

Dominating Double Pilot Valve

With dominating pilot at 14 and manual override

Type JDH-5-1/8

The valve is shifted by alternating pneumatic signals at connections 14 and 12. After the signal is removed, the valve maintains its shifted position until a counter-signal is received. If both pilot pressures are present and equal, the signal at port 14 dominates and the valve shifts in that direction.

For manifold mounting,
Type PAL-..., see page 451.
Type PRS-..., see page 452.

Example: Type JH-5-1/8

Minimum Pilot Pressure versus Supply Pressure

Type JH-5-1/8, JH-5-1/8 NPT

Type JDH-5-1/8

— Exhaust flow open
- - Exhaust flow controlled

1 (P) = Supply
4, 2 (A, B) = Outlet
5, 3 (R, S) = Exhaust
12, 14 (Y, Z) = Pilot

Order Number	ISO Connection	8823 JH-5-1/8	8824 JDH-5-1/8
Part No./Type	NPT Connection	10878 JH-5-1/8-NPT	-
Medium		Compressed air (filtered, lubricated, or unlubricated)	
Design		Poppet valve	
Mounting		3 through-holes in housing	
Connection	Working Ports	G 1/8 ISO or 1/8 NPT	G 1/8 ISO
	Pilot Port	G 1/8 ISO or 1/8 NPT	G 1/8 ISO
Orifice Size		0.20 in / 5 mm	
C _v Factor (P → A)		0.6 C _v / 600 l/min	
Operating Pressure Range		0 to 150 psi / 0 to 10 bar	
Pilot Pressure Range		See graph (max. 150 psi / 10 bar)	
Switching Time at 90 psi / 6 bar		7 ms	9 ms, dominating function 16 ms
Temperature Range		14 to 140°F / -10 to +60°C	
Materials		Housing: die-cast aluminum, anodized; seals: Buna N	
Weight		0.540 lb / 0.245 kg	

Product Range and Company Overview

A Complete Suite of Automation Services

Our experienced engineers provide complete support at every stage of your development process, including: conceptualization, analysis, engineering, design, assembly, documentation, validation, and production.

Custom Automation Components
Complete custom engineered solutions

Custom Control Cabinets
Comprehensive engineering support and on-site services

Complete Systems
Shipment, stocking and storage services

The Broadest Range of Automation Components

With a comprehensive line of more than 30,000 automation components, Festo is capable of solving the most complex automation requirements.

Electromechanical
Electromechanical actuators, motors, controllers & drives

Pneumatics
Pneumatic linear and rotary actuators, valves, and air supply

PLCs and I/O Devices
PLC's, operator interfaces, sensors and I/O devices

Supporting Advanced Automation... As No One Else Can!

Festo is a leading global manufacturer of pneumatic and electromechanical systems, components and controls for industrial automation, with more than 12,000 employees in 56 national headquarters serving more than 180 countries. For more than 80 years, Festo has continuously elevated the state of manufacturing with innovations and optimized motion control solutions that deliver higher performing, more profitable automated manufacturing and processing equipment. Our dedication to the advancement of automation extends beyond technology to the education and development of current and future automation and robotics designers with simulation tools, teaching programs, and on-site services.

Quality Assurance, ISO 9001 and ISO 14001 Certifications

Festo Corporation is committed to supply all Festo products and services that will meet or exceed our customers' requirements in product quality, delivery, customer service and satisfaction.

To meet this commitment, we strive to ensure a consistent, integrated, and systematic approach to management that will meet or exceed the requirements of the ISO 9001 standard for Quality Management and the ISO 14001 standard for Environmental Management.
