## **Click fittings NPKA**

# **FESTO**

### Application

Effortless selection of the right fitting. Festo offers a secure solution for every connection. The convenient push-in fitting system includes well over 1000 types of standard and function fittings.

| Applications  | Fitting | Tubing     | Description   |  |  |  |  |  |
|---|---------|------------|---|--|--|--|--|--|
| digh pressures Resistant to chemicals, cood safe and hydrolysis esistant Anti-static Clame retardant Resistant to welding | QS      | PEN        | Suitable for a wide range of tasks and attractively priced. Flexible thanks to highly resistant materials, easy to install thanks to optimised bending radii. High level of abrasion resistance in dynamic applications.                    |  |  |  |  |  |
|   | QS      | PUN        | Maximum flexibility in standard applications thanks to an extremely wide range of options for combining the different types.  |  |  |  |  |  |
| QS  QS  NPQM  NPQH  NPQH  esistant to chemicals, od safe and hydrolysis sistant  NPKA  NPCK  CRQS  nti-static  NPQM       | QS      | PAN        | Meets all requirements, even for standard applications with increased pressure and temperature ranges.  |  |  |  |  |  |
| Resistant to chemicals,<br>good safe and hydrolysis<br>esistant   | NPQM    | PAN-MF     | Meets DIN standard 73378: ideal for use in mobile pneumatics. Suitable for increased temperature ranges combined with high pressure ranges.   |  |  |  |  |  |
|   | NPQH    | PAN-R      | Powerful in pressure ranges up to 20 bar, for example in applications with the pressure booster DPA.  |  |  |  |  |  |
| Resistant to chemicals, food safe and hydrolysis  | NPQP    | PLN        | Resistant to cleaning agents, FDA compliant and economical. Can be used instead of the combination with stainless steel fittings.   |  |  |  |  |  |
| food safe and hydrolysis resistant  Anti-static  Flame retardant  Resistant to welding                                    | NPKA    | PUN-H      | Hydrolysis resistant and suitable for water applications. Combination suitable for use in clean rooms, FDA compliant and corrosion resistant thanks to 100% polymer construction. Very easy to install thanks to the "one click principle". |  |  |  |  |  |
|   | NPQH    | PFAN/PTFEN | For high temperatures up to 150 °C. Suitable for use in the food industry, FDA compliant and resistant to cleaning agents.  |  |  |  |  |  |
|   | NPCK    | PFAN/PTFEN | Easy to clean thanks to the union nut's edge-free design. Maximum resistance to corrosion (CRC 4) and FDA compliant. Suitable for a wide range of media.  |  |  |  |  |  |
|   | CRQS    | PFAN/PTFEN | Maximum resistance to corrosion (CRC 4) and to aggressive acids and lyes.   |  |  |  |  |  |
| Anti-static   | NPQM    | PUN-CM     | Anti-static tubing plus solid metal fitting: maximum protection for electrical and electronic components.   |  |  |  |  |  |
| Flame retardant   | NPQM    | PUN-V0     | Very safe in areas where there is a risk of fire thanks to flame-retardant properties. The tubing has been tested to DIN 5510-2.  |  |  |  |  |  |
| Resistant to welding spatter  | NPQH    | PUN-VO-C   | Ideal for applications involving welding spatter. Reliable thanks to a tubing wall thickness of 2 mm for all diameters.   |  |  |  |  |  |
|   | QS-V0   | PAN-VO     | Safe even in the mediate vicinity of welding spatter thanks to the double-walled tubing with special fitting.   |  |  |  |  |  |

## **Click fittings NPKA**

Key features

#### **FESTO**

#### Push-in fittings product range

QSM, mini series

#### Technical data → Internet: qsm

Miniature push-in fittings for maximum component density in confined spaces. For pneumatic applications with a temperature range up to 80 °C and a pressure range up to 14 bar. Tubing O.D.Ø of 2, 3, 4 and 6 mm with connecting threads M3, M5, M6, M7, R½ and G½.

#### QS, standard series

#### Technical data → Internet: qs

Wide selection of push-in fittings for pneumatic applications with a temperature range up to  $80\,^{\circ}\text{C}$  and a pressure range up to 14 bar. Tubing O.D. $\varnothing$  of 4, 6, 8, 10, 12, 16 and 22 mm with connecting threads R½ ... R½ and G½ ... G¾.

#### CRQS, stainless steel

#### Technical data → Internet: crqs

Stainless steel push-in fitting. High corrosion resistance (CRC4) and chemical resistance with approval for use in the food and packaging industry. For pneumatic applications with a temperature range up to 120 °C and a pressure range up to 10 bar.

Tubing O.D. $\varnothing$  of 4, 6, 8, 10, 12 and 16 mm with connecting threads M5 and R½ ... R½ .

#### QS-V0, weld spatter resistant

#### Technical data → Internet: qs-v0

Flame-retardant push-in fitting for use in all areas where there is a risk of fire, for example welding systems in the automotive industry and in the construction industry. For pneumatic applications with a temperature range up to 60 °C and a pressure range up to 10 bar.

Tubing O.D. $\varnothing$  of 4, 6, 8, 10 and 12 mm with connecting threads R½ ... R½ and G½ ... G½ .

#### NPQH

#### Technical data → Internet: npqh

All metal push-in fitting made of chemically nickel-plated brass. High corrosion resistance (CRC3) and chemical resistance. For pneumatic applications with a temperature range up to 150 °C and a pressure range up to 20 bar.

Tubing O.D. $\varnothing$  of 4, 6, 8, 10, 12 and 14 mm with connecting threads M5, M7 and G½ s... G½ .

#### NPQM

#### Technical data → Internet: npgm

Attractively priced metal push-in fitting for pneumatic applications with a temperature range up to  $70\,^{\circ}\text{C}$  and a pressure range up to  $16\,\text{bar}$ . Tubing  $0.D.\varnothing$  of  $3,\,4,\,6,\,8,\,10,\,12$  and  $14\,\text{mm}$  with connecting threads M5, M7 and  $6\,^{1}\!/\text{s} \dots 6\,^{1}\!/\text{s} \dots$ 

#### NPQP

#### Technical data → Internet: npqp

Polypropylene fitting for use in applications with extreme media influences. For pneumatic applications with a temperature range up to 60 °C and a pressure range up to 10 bar. Tubing 0.D.Ø of 4, 6, 8, 10 and 12 mm with connecting threads R¹/8 ... R¹/2.

Key features

#### Functional push-in fittings product range

QSK, self-sealing push-in fitting

Technical data → Internet: qsk

Push-in fitting that blocks the air flow after the tubing is disconnected. For pneumatic applications with a temperature range up to 60  $^{\circ}\text{C}$  and a pressure range up to 14 bar. Tubing 0.D. $\varnothing$  of 4, 6, 8, 10 and 12 mm with connecting threads M5,  $R^{1/8}$  ...  $R^{1/2}$  and  $G^{1/8}$  ...  $G^{1/2}$ .

#### QSR, rotary push-in fitting

Technical data → Internet: qsr

Push-in fitting with swivel connection, rotatable by 360°. The ball bearing enables rotating movements in the application up to max. 500 rpm. For pneumatic applications with a temperature range up to 60 °C and a pressure range up to 14 bar. Tubing 0.D. $\varnothing$  of 4, 6, 8, 10 and 12 mm with connecting threads M5, R<sup>1</sup>/<sub>8</sub> ... R<sup>1</sup>/<sub>2</sub> and G<sup>1</sup>/<sub>8</sub> ... G<sup>1</sup>/<sub>2</sub>.

## Quick connectors product range

NPCK

Technical data → Internet: npck

Stainless steel fitting for use in areas subject to intensive cleaning. Highest level of corrosion resistance (CRC 4). For pneumatic applications with a temperature range up to 120 °C and a pressure range up to 12 bar. Tubing O.D. 6 mm with connecting thread G1/8.

## Click fittings product range

Technical data → Internet: npka

Plastic fitting for easy installation with one-hand operation. Hydrolysis resistant, FDA compliant and easy to clean. For pneumatic applications with a temperature range up to 60  $^{\circ}\text{C}$ and a pressure range up to 10 bar. Tubing O.D. 6 mm with connecting thread G1/8.

## **Click fittings NPKA**

Key features

#### **Key features**

The click fitting NPKA is safe for use in the food industry.

The NPKA is made entirely of plastic and is suited for use in areas subject to intensive cleaning.

- Quick and simple tube installation using one hand
- Reliable assembly: click sound indicates that the open or closed position has been reached
- Low leaking, no scratching of the tube by retaining claws
- Easy to clean, sealed shape when tube fitted
- Suitable for tubes with corresponding slot

#### Assembly:

- Screw the threaded plug 1 and the sealing ring 2 on to the counterpart and tighten in accordance with the nominal tightening torque.
   Special feature of the straight design NPKA-D: insert long side of Allen key 3 completely into the click fitting through the sleeve 4. Use the entire contact surface of the internal hexagon socket (→ Fig. 1).
- 2) Pull the sleeve 4 as far as the stop contour 1 5 of the

## clamping collet, until you hear and feel the sleeve click in.

- 3) Insert the plastic tubing 6 through the open sleeve 4, clamping collet and tubing seal as far as the tube bearing shoulder (→ Fig. 2).
- 4) Push the sleeve as far as the stop contour 2 7 of the clamping collet, until you hear and feel the sleeve click in (→ Fig. 3).

  The closed sleeve pushes the clamping segment of the clamping collet against the plastic tubing, holding it in place.

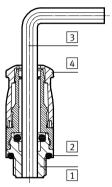

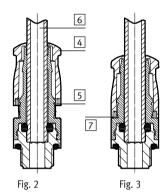

Fig. 1

stop cont

Dismantling:

 Dismantling is completed in reverse order to the assembly.
