

Linear actuators DFPI

Linear actuators DFPI

Key features

Function

DFPIs are closed-loop controlled linear actuators. They are available with integrated displacement encoder (DFPI-...-E-...) or fully integrated positioner (DFPI-...-C1V-...). In the version DFPI-...-E-..., the potentiometric displacement encoder supplies an analogue voltage signal proportional to the piston position. This can be

used for operation with an external positioner. In the version DFPI-...-C1V-..., the integrated positioner provides the positioning function. This actuator has a factory-defined safety position that is assumed if the operating voltage or the analogue setpoint value fails. The

position is preset via an analogue setpoint signal in the range of 4 ... 20 mA. The position feedback takes place via an analogue feedback signal in the range of 4 ... 20 mA. The feedback signal provides the user with greater reliability and easier diagnostics. The travel speed can be

adjusted using the integrated flow control screws. Variants with a mounting interface to ISO 15552 or DIN EN ISO 5210 are available. The sturdy corrosion-resistant design of the DFPI is ideal for use under harsh ambient conditions.

Innovative

- Ready-to-install, compact unit for easy installation
- Sturdy and corrosion-resistant, ideal for use under harsh ambient conditions

Flexible

- Wide range of accessories for virtually any installation situation
- Suitable for use in potentially explosive locations
- Additional contactless binary end-position sensing possible with proximity sensors
- Suitable for applications with closed-loop controlled linear and swivel motion

Design

- Double-acting
- Optionally with integrated displacement encoder or fully integrated positioner
- Sizes Ø 100, Ø 125, Ø 160, Ø 200, Ø 250 and Ø 320
- Stroke lengths 40 to 990 mm
- Mounting interfaces to ISO 15552 or DIN EN ISO 5210
- IP65, IP67, IP69K, NEMA4
- ATEX certification

Ordering data – Product options

Configurable product
This product and all its product options can be ordered using the configurator.

The configurator can be found under Products on the DVD or

5099770	DFPI-250
5106115	DFPI-320

Linear actuators DFPI

Key features

Product options for DFPI...-NB3P... based on ISO 15552

- 1 M12x1 plug, 5-pin, A-coded
- 2 Cable connector M16x1.5
- 3 Metal flanged socket
- 4 Push-in fitting QS¹⁾
- 5 Air duct at the actuator, stainless steel pipe or plastic tubing
- 6 Connecting cable NHSB¹⁾, 5-wire, for DFPI...-C1V-P-A
- 7 Connecting cable NHSB¹⁾, 3-wire, for DFPI...-E-P

Product options for DFPI...-E... and DFPI...-C1V... based on DIN EN ISO 5210

- 1 Plastic flanged socket
- 2 Metal flanged socket
- 3 Push-in fitting QS¹⁾
- 4 Connecting cable NHSB¹⁾, 5-wire, for DFPI...-C1V-P-A
- 5 Connecting cable NHSB¹⁾, 3-wire, for DFPI...-E-P

1) Can be ordered separately as an accessory

Linear actuators DFPI

Product range overview

DFPI-...-E-NB3...

- For operation with an external positioner with analogue voltage input
- Potentiometric displacement encoder integrated into the actuator DFPI
- Sturdy tie rod design
- Double-acting
- Mounting interfaces to ISO 15552 on bearing and end caps

Version		Characteristics	→ Page
DFPI-...-E-NB3...	DFPI-...-E-NB3P-...	 <ul style="list-style-type: none"> • Electrical, pneumatic connection using metal flanged socket, pre-assembled connecting cable NHSB, see Accessories chapter • Air duct on the outside of the actuator via plastic tubing 	11

DFPI-...-C1V-NB3...

- Digital electropneumatic positioner integrated within the drive housing
- Setpoint input 4 ... 20 mA
- Position feedback 4 ... 20 mA
- Safety position either retracting or advancing piston rod depending on the product version
- Sturdy tie rod design
- Double-acting
- Mounting interfaces to ISO 15552 on bearing and end caps

Max. lateral force as a function of stroke length l

The maximum lateral force (horizontal/vertical) applies to the static application. In closed-loop operation, the maximum lateral force needs to be adjusted to the

type of control. If necessary, the piston rod must be guided to avoid system vibration.

 Note

Stroke length of the actuator

The stroke length of the actuator should generally at least correspond to the nominal diameter of the process valve so that the process valve can be fully opened and closed. The system tolerances can lead to a greater stroke range than the specified nominal stroke range of the linear actuator. The adjustable rod clevis enables adjustment of the system.

 Note

Stroke length of the actuator

The stroke length of the actuator should generally at least correspond to the nominal diameter of the process valve so that the process valve can be fully opened and closed. The system tolerances can lead to a greater stroke range than the specified nominal stroke range of the linear actuator. During initialisation, the integrated positioner learns the stroke length used and ensures that the slide gate moves to the required positions in a controlled way – at most to the end positions learned during initialisation.

Linear actuators DFPI

Accessories

FESTO

Connecting cable NHSB

- Pre-assembled connecting cable
- Suitable for linear actuators
DFPI-...-E-P-... and DFPI-...-C1V-P-...
- Cable lengths 5, 10 and 15 m

General technical data		
Connecting cable	[mm ²]	3x 0.75
		5x 0.75
Mounting position		Any
Electrical connection 1		Straight plug connector, 3-pin
Electrical connection 2		Open end, 3-wire
		Open end, 5-wire
Min. cable bending radius	[mm]	100
Pneumatic connection		For tubing O.D. 8 mm
		–
		For tubing O.D. 10 mm

Operating and environmental conditions		
Ambient temperature	[°C]	–20 ... +60
Ambient temperature with flexible cable installation	[°C]	–5 ... +60
Operating voltage range	[V DC]	0 ... 30
Operating medium		Compressed air to ISO 8573-1:2010 [7:4:4]
Note on operating/pilot medium		Lubricated operation possible
Degree of protection		IP65, IP67, IP69K, NEMA 4
Relative humidity	[%]	5 ... 100, condensing

Materials	
Protective conduit	PA
Protective conduit fitting	PA
Cable sheath	PVC
Seals	TPE
Note on materials	RoHS-compliant

Operating pressure [bar] as a function of operating temperature [°C]

200		219.5		60			175	380	2	3713	151535	SNGL-200

1) Corrosion resistance class CRC 2 to Festo standard FN 940070
Moderate corrosion stress. Indoor applications in which condensation may occur. External visible parts with primarily decorative requirements for the surface and which are in direct contact with the ambient atmosphere typical for industrial applications.

Linear actuators DFPI

Accessories

FESTO

Adapter kit DADG-AK-F6-A2

For direct mounting of a positioner on the linear actuator DFPI-ND2P-E-NB3P

General technical data

Ambient temperature ¹⁾	[°C]	-20 ... +80
Corrosion resistance class CRC ²⁾		3

1) Note operating range of proximity sensors and cylinder

2) Corrosion resistance class CRC 3 to Festo standard FN 940070

High corrosion stress. Outdoor exposure under moderate corrosive conditions. External visible parts with primarily functional requirements for the surface and which are in direct contact with a normal industrial environment.

Materials

Mounting bracket	High-alloy stainless steel
Screws	High-alloy stainless steel
Note on materials	Contains PWIS (paint-wetting impairment substances)
	RoHS-compliant
