1) For plastic tubing with standard O.D.

Shut-off valves HE Features

- 1 Flow rate 300 ... 800 l/min
- Connection R¹/8 ... R¹/2
- With QS push-in connector for standard O.D. tubing at both ends
- With connecting thread and push-in connector
- With connecting thread at both ends
- Designs with connecting thread can be turned 360°

Air flow is fully blocked in both directions with this valve.

Ball valves QH/QHS, manually actuated Key features

FESTO

- 🚺 - Flow rate 148 ... 84,000 l/min

Variants:

- With 2 push-in connectors
- With connecting thread and push-in connector
- With bulkhead connector • With external thread
- R¹/8, PTFE-coated • Via female thread
 - G¼ ... G1½

Air flow is fully blocked in both directions with these valves by turning the lever.
