

Quarter turn actuators DFPB

FESTO

Quarter turn actuators DFPB

Key features

FESTO

General

- The DFPB quarter turn actuator is a rack and pinion combination that converts the linear movement of the shaft. Quarter turn actuators based on this principle exhibit an identical torque characteristic across the entire rotation angle range of 90°.

Function

- In addition to the ISO 5211 interface, all of the quarter turn actuators in the DFPB series have a so-called pressure relief slot at either end. This enables the DFPB to be mounted on all process valves regardless of whether or not the process valve features this slot, which is a requirement for the chemical industry. This greatly increases the applications of the process valves
- Standards-based (VDI/VDE 3845) hole patterns 30/80 as standard for direct mounting of a range of common peripheral devices such as sensor boxes for end position display and controllers for accurate positioning

Design

- Compact design
- One housing for double and single-acting actuators
- Constant torque characteristic
- Long service life, low wear thanks to an innovative pressure-dependent lip seal
- The pressure relief slot in the housing means that all process valves can be used in the chemical industry, regardless of whether or not the process valve flange features this slot
- Operation with clockwise and anti-clockwise rotation thanks to the process valve connection to ISO 5211 on both sides

Easy to clean

- Resistant to conventional cleaning agents
- Sturdy, non-slip and easy-to-clean aluminium housing offers greater safety even in corrosive atmospheres
- No countersunk holes, radii as per FDA directive
- Increased corrosion protection

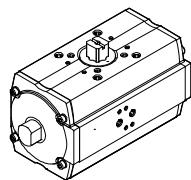

Easy to mount

- Flexible attachment options thanks to choice of mounting adapters as accessory
- Extremely fine torque gradation for optimum adaptation to the process valve
- The DFPB actuator series is maintenance-free. When changing the seal, only 1 Allen key is needed to dismantle the entire actuator

Variants

DFPB-...

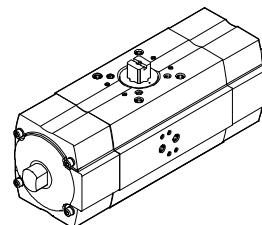

Double-acting

A spare part kit is available for each size of the quarter turn actuator DFPB. This includes all wearing parts such as seals, O-rings, slip bands and bearings needed to repair a DFPB.

DFPB-...-S

Single-acting

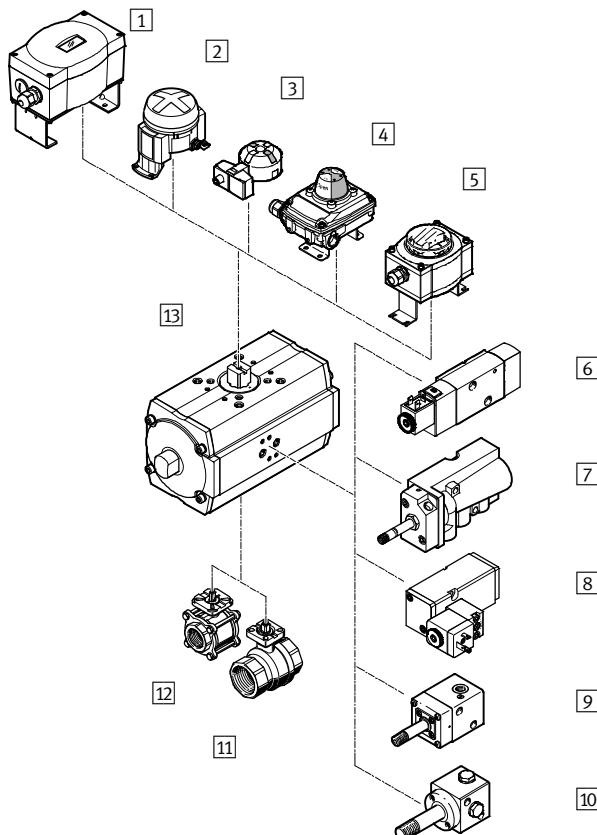

The single-acting actuators are each available with 4 different spring types S3-S6 for adapting to 4 pressure levels from 3 ... 6 bar.

Quarter turn actuators DFPB

Peripherals overview

Mounting components and accessories

	Brief description	➔ Page/Internet
[1] Positioner CMSX	For position control of quarter turn actuators in process automation systems	cmsx
[2] Limit switch attachment DAPZ	Round design, variant AR, electrical, inductive or inductive and explosion-proof sensing	dapz
[3] Sensor boxes SRBG	For electrical feedback and position monitoring of process valves which are actuated with quarter turn actuators	srbg
[4] Sensor boxes SRBC	For electrical feedback and position monitoring of process valves which are actuated with quarter turn actuators	srbc
[5] Sensor boxes SRAP	SRAP, analogue sensor box continuously senses the entire swivel range and reports this back to the controller	srap
[6] Solenoid valves VSNC	For single- and double-acting quarter turn actuators with a connection pattern to VDI/VDE 3845	vsnc
[7] Solenoid valves NVF3	For F solenoid coil and explosion-proof F solenoid coil, connection pattern to Namur	nvf3
[8] Solenoid valves VSNB	Solenoid valve with solenoid coil, connection pattern to Namur	vsnb
[9] Solenoid valves VOFC	Solenoid valve with solenoid coil, connection pattern to Namur	vofc
[10] Solenoid valves VOFD	Solenoid valve with solenoid coil, connection pattern to Namur	vofd
[11] Ball valves VAPB	2-way, brass, with pipe thread to EN 10226-1	vapb
[12] Ball valves VZBA	2-way, stainless steel, optionally with pipe thread to EN 10226-1 or with welding ends	vzba
[13] Quarter turn actuators DFPB	Single- and double-acting quarter turn actuators with a connection pattern to VDI/VDE 3845	5

1) Corrosion resistance class 3 according to Festo standard 940 070

Components requiring higher corrosion resistance. External visible parts in direct contact with industrial atmospheres or media such as solvents and cleaning agents, with a predominantly functional requirement for the surface

2) The adapter kit DASB-P1-HA-SB can optionally be used for all DFPB actuators
