

Media separated solenoid valves VYKB

FESTO

Key features

Special characteristics

- Very easy to clean thanks to media separation
- Low media consumption thanks to small internal volume
- High-quality materials, therefore also suitable for aggressive media
- High flow rate with small size
- High repetition accuracy, switching frequency and precision, therefore also suitable for extremely small volumes and dosing tasks
- Low power consumption as a result of holding current reduction
- Extremely flexible in use thanks to 3/2-way and 2/2-way variants as well as 12 ... 24 V DC actuation

Function

VYKB is a media separated solenoid valve. It is used to control gaseous and liquid media in laboratories.

The valve VYKB is a directly actuated directional control valve with solenoid coil. In a de-energised state, the valve automatically returns to its normal position. Normally closed (2/2-way solenoid valve and 3/2-way solenoid valve) and normally open (3/2-way solenoid valve only) variants are available.

Configuration

- [1] Terminal contact for connecting cable NEBV (included in the scope of delivery of the valves)
- [2] Solenoid valve VYKB
- [3] Screws for mounting on the sub-base (included in the scope of delivery of the valves)
- [4] Sub-base VABS
- [5] Media connections

Product range overview

Function	Circuit symbol	Type	Variants	Size	Flow rate Kv [m³/h]	Outlet direction of electrical components	→ Page/ Internet
Media separated solenoid valve	Rocker valve with diaphragm seal						
		VYKB-...-M22C	2/2-way solenoid valve: • Single solenoid • Normally closed • Operating voltage 12 ... 24 V DC	10 mm	0.034	• Straight • Angled	7
				12 mm	0.056	• Straight	7
		VYKB-...-M32	3/2-way solenoid valve: • Single solenoid • Normally closed/open • Operating voltage 12 ... 24 V DC	10 mm	0.034	• Straight • Angled	7
				12 mm	0.056	• Straight	7

Key features – Mounting

Mounting with ports underneath

- [1] Vertical mounting holes
- [2] Horizontal mounting holes

The individual sub-base for wall mounting is designed for integration into a system or machine. It can be mounted horizontally or vertically.

Mounting with ports at the side

- [1] Vertical mounting holes

The individual sub-base for wall mounting is designed for integration into a system or machine. It can be mounted vertically.

Technical data

-  - Size:
10 mm
12 mm
-  - Flow rate:
0.034 [m³/h]
0.056 [m³/h]

General technical data			
Size		10 mm	12 mm
Valve function		2/2-way, closed, single solenoid	
		3/2-way, open/closed, single solenoid	
Design		Rocker valve with diaphragm seal	
Reset method		Mechanical spring	
Nominal size		[mm]	
		1.6	2.0
Fluid connection		Flange	
Flow rate Kv	2/2-way valve	[m³/h]	0.034
	3/2-way valve	[m³/h]	0.056
Internal volume	2/2-way valve	[μ]	35
	3/2-way valve	[μ]	60
Sealing principle		Soft	
Direction of flow		Not reversible	
Actuation type		Electrical	
Type of control		Direct	
Manual override		None	
Type of mounting		With through-hole for M2 screw	With through-hole for M3 screw
Mounting position		Any	
Degree of protection		IP40	
Corrosion resistance class ¹⁾		0	
Product weight		[g]	
		20	42

1) Corrosion resistance class CRC 0 to Festo standard FN 940070

No corrosion stress. Applies to small, visually unimportant standards-based parts such as threaded pins, circlips and clamping sleeves which are usually only available on the market in a phosphated or burnished version (and possibly oiled) as well as to ball bearings (for components < CRC 3) and plain bearings.

Electrical data
