## Accessories

		Type	Description	→ Page/Internet
[1]	Prop.-pressure regulator	VPPE...	–	9
[2]	Prop.-pressure regulator with display	VPPE ... E1	–	15
[3]	Setpoint module	MPZ	For generating 6+1 analogue voltage signals	9, 15
[4]	Digital input/output	–	For actuating the setpoint module	–
[5]	Connecting cable	SIM-M12-5GD-...-PU	With straight plug socket for actuating the VPPE...E1	1
[6]	Connection socket	SIE-GD	Straight plug socket for actuating the VPPE	15
[7]	Connection socket	SIE-WD-TR	Angled plug socket for actuating the VPPE	9
[8]	Connecting cable	SIM-M12-4GD-5PU	With straight plug socket for actuating the VPPE	9
[9]	Connecting cable	SIM-M12-4WD-5PU	With angled plug socket for actuating the VPPE	9
[10]	Push-in fitting	QS	For connecting compressed air tubing with standard O.D.	quick star
[11]	Silencer	U	For mounting in exhaust ports	u
[12]	Socket head screw M4x55	–	For screwing the VPPE to the mounting plate	17
[13]	Socket head screw M4x16	–	For screwing the mounting plate to the slot nut	17
[14]	Mounting plate (set)	VAME-P5-MK	For attaching the VPPE to the profile strip (consists of mounting plate, slot nuts, screws and seals)	17
[15]	O-ring	–	For sealing	17
[16]	Slot nuts	–	For clamp fastening on the profile strip	17
[17]	Profile strip	–	Standard profile strip as central air supply	17
[18]	Compressed air supply plate (set)	VABF-P5-P3A3...	For supplying compressed air (consists of compressed air supply plate, screws and seal)	17
[19]	Seal	–	–	17
[20]	Socket head screw M5x12	–	For screwing the compressed air supply plate to the profile strip	17

Peripherals overview – Additional supply

Accessories

## Data sheet

### General information

#### Design

Some selected types of the pressure regulator VPPE can be screwed to a profile strip. This has the advantage that the profile strip can be used to create a central compressed air supply.

The air can be fed into the profile strip:

- at one end or
- at both ends through end plates,
- using an intermediate air supply module (in applications where an increased air rate is required).

The holes for the profile strip must be drilled according to the assembly instructions. The pressure regulators VPPE are screwed to the profile strip using the mounting plate. The end plates are screwed to the left and right end faces of the profile strip. See the

assembly instructions for further information:

→ Internet: vppe

#### Compressed air supply on the profile strip

When using the profile strip as a central compressed air supply, make sure that the required compressed air supply is guaranteed. Bear in mind that an intermediate air supply module needs

a valve position. The intermediate air supply module takes up one VPPE valve position.

#### Recommendation for compressed air supply

For example, with tubing diameter  $\varnothing$  16 mm with simultaneous max. flow rate for all valves, the following applies:

Compressed air supply – number of valves:

- At one end – max. 5 valves
- At both ends – max. 10 valves
- With intermediate air supply module – max. 5 valves each

#### Note

- Intermediate air supply modules must always be centred on the profile strip.
- Multiple intermediate air supply modules must be evenly distributed.

#### Note

Only the following types of proportional-pressure regulators VPPE can be mounted on profile strips using a mounting plate:

- Valve VPPE with LED display, VPPE-3-1/8-6-010
- Valve VPPE with display and top part rotated by 90° VPPE- ... –E1T

Further information on mounting proportional-pressure regulators VPPE as well as intermediate air supply modules on profile strips can be found in the assembly instructions:

→ Internet: vppe

#### Mounting plate (set) materials

Plate	Wrought aluminium alloy
Seals	NBR
Screws	Steel
Note on materials	RoHS-compliant
Corrosion resistance class	[CRC] 2 <sup>1)</sup>

1) Corrosion resistance class CRC 2 to Festo standard FN 940070

Moderate corrosion stress. Indoor applications in which condensation can occur. External visible parts with primarily decorative surface requirements which are in direct contact with a normal industrial environment.
