

# Piston rod attachments

Festo Core Range  
Solves the majority of your automation tasks

Worldwide: Quickest delivery – wherever, whenever  
Simply good: Expected high Festo quality  
Fast: Easy and fast to select

With the Festo Core Range, we have selected the most important products and functions from our broad product catalogue, and added the quickest delivery.  
The Core Range offers you the best value for your automation tasks.

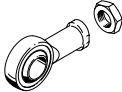

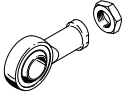

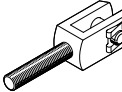

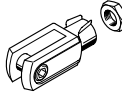

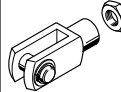

Peripherals overview

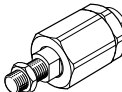

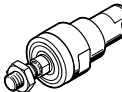

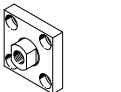

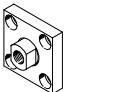

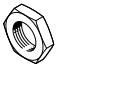

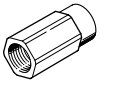

Mounting attachments and accessories		Description
[1]	Cylinders with piston rod	The piston rod attachments are mounted on the piston rod of the cylinder.
[2]	Adapter AD	Specially for through, hollow piston rods, e.g. for connecting suction cups.
[3]	Hex nut MSK	Based on and/or corresponds to ISO 8675.
[4]	Coupling piece KSG	The coupling pieces connect the piston rod end of all cylinder types to the machine parts to be moved. They compensate for radial misalignments up to $\pm 1$ mm.
	Coupling piece KSZ	For cylinders with non-rotating piston rods. This coupling piece ensures the cylinder has a stable connection to the component being moved in order to compensate for radial deviation.
[5]	Self-aligning rod coupler FK	The rod couplers connect the piston rod end of all cylinder types to the machine parts to be moved. This compensates for radial and angular deviations (misalignment).
	Self-aligning rod coupler CRFK	Corrosion and acid-resistant design.
[6]	Rod clevis SG	This rod clevis is fitted to the threaded front end of the piston rod and permits a swivelling movement of the cylinder in one plane. Corresponds to ISO 8140 or DIN 71752.
	Rod clevis CRSG	Corrosion and acid-resistant design. Corresponds to ISO 8140 or DIN 71752.
[7]	Rod eye SGS	The swivel bearing of the rod eyes are maintenance free. Correspond to ISO 12240-4 dimensional series K.
	Rod eye CRSGS	Corrosion and acid-resistant design. Correspond to ISO 12240-4 dimensional series K.
[8]	Rod clevis SGA	Rod clevises are used in combination with the rod eye SGS for spherical connection of cylinders.

## Datasheet

### Rod eye CRSGS

Scope of delivery:  
1 rod eye, 1 hex nut to DIN 439

Material:  
High-alloy steel

RoHS-compliant  
LABS (PWIS) conformity:  
VDMA24364-B2-L

Recommended for production systems  
for manufacturing lithium-ion batteries.

2) Max. friction torque ML up to max. play DR possible.

3) In the area of the ball: CRC 1

More information [www.festo.com/x/topic/crc](http://www.festo.com/x/topic/crc)

4) F5a: Metals with more than 5% by mass of copper, zinc or nickel are excluded from use. Exceptions are nickel in steel, chemically nickel-plated surfaces, printed circuit boards, cables, electrical plug connectors and coils.

More information: [www.festo.com/x/topic/bat](http://www.festo.com/x/topic/bat)

## Datasheet

## Rod clevis SGA

## Scope of delivery:

 1 rod clevis, 1 pivot pin,  
 1 retaining clip

## Material:

Galvanised steel

## RoHS-compliant

LABS (PWIS) conformity:

VDMA24364-B2-L

The rod clevis SGA [1] is used in combination with the rod eye SGS [2] (→ page 4) for spherical connection of cylinders.

## Datasheet

### Self-aligning rod coupler CRFK

Scope of delivery:  
1 self-aligning rod coupler

Material:  
Housing, threaded bolt, nut: High-alloy stainless steel  
Cap: EPDM

RoHS-compliant  
LABS (PWIS) conformity:  
VDMA24364-B2-L

#### Dimensions and ordering data

## Self-aligning rod coupler DARP

Scope of delivery:  
1 self-aligning rod coupler, 1 hex nut to DIN 439

Material:  
Housing, bushing, nut: High-alloy stainless steel  
Spherical washer, ball stud: Case-hardened steel

RoHS-compliant  
LABS (PWIS) conformity:  
VDMA24364-B2-L

Recommended for production systems for manufacturing lithium-ion batteries.

## Datasheet

### Coupling piece KSG

The coupling piece connects the piston rod thread of all cylinder types to the machine parts to be moved. It compensates for radial deflections of up to 1 mm.

Scope of delivery:

1 flange plate, 1 threaded coupling

Material:

Galvanised steel

RoHS-compliant

LABS (PWIS) conformity:

VDMA24364-B2-L

## Datasheet

### Coupling piece KSZ

for non-rotating piston rods with male thread

This coupling piece provides a non-rotating cylinder with stability when connecting it with a component, without needing to turn the cylinder or the component.

Scope of delivery:

1 flange plate, 1 threaded coupling

Material:

Galvanised steel

RoHS-compliant

LABS (PWIS) conformity:

VDMA24364-B2-L

1) For retaining screws with regular thread/strength class 8.8.

2) For lock nut on the piston rod

3) Transferable torque of coupling with friction coefficient =  $\mu$  0.1 and 10x safety with max. permissible tightening torque

4) More information: [www.festo.com/x/topic/crc](http://www.festo.com/x/topic/crc)

#### Note

The torque on the coupling piece must not exceed the permissible torque on the cylinder. The retaining screws must be evenly tightened.
