

Quarter turn actuator units KDFP

FESTO

Key features

At a glance

The new configurator provides support for the high volume of requests for customised quarter turn actuator units that are processed by the engineering department. It is now possible to find, select, size and order the right quarter turn actuator units without having to wait. Access to prices and delivery times is provided immediately after configuration. Configuration-compatible data sheets are also available, as well as 2D CAD data and 3D CAD models in many native and neutral formats. The complete units of course also come with certificates.

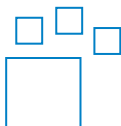

Innovative

- The new configurator provides support throughout the entire process, from searching for products to ordering
- Configuration, sizing, documentation, RFQ, ordering and delivery of the quarter turn actuator units are combined in a single tool

Function

- Direct link to the Festo Online Shop
- User-friendly GUI
- Advice on solutions
- Specific 2D/3D CAD files available for download after configuration
- Configuration-compatible bill of materials available for download
- Delivery date query possible

Ordering data – Product options

Configurable product
This product and all its product options can be ordered using the configurator.

The configurator can be found under Products on the DVD or at
→ www.festo.com/catalogue/...
