

Filter regulator LFR

FESTO

Characteristics

At a glance

Space-saving design with filter and regulator in a single device.

- Good particle separation and high flow rate
- Good regulation characteristics with minimal hysteresis
- Resistant to UV radiation and corrosive environments
- Setting values are secured by locking the rotary knob

Version

[D] D series, metal

Sturdy in full metal design for the specific requirements of the process automation industry

Pressure regulation range

Two pressure regulation ranges: 0.5...12 bar and 0.5...16 bar

Pressure gauge

A pressure gauge can be ordered as an option. The interface has a G1/4 thread.

Temperature range

Two temperature ranges can be selected. Suitable for outdoor use and low temperatures down to -40 °C .

EU certification

Suitable for use in potentially explosive environments in zones 1 and 21
