

Precision pressure regulator LRP, LRPS

FESTO

Characteristics

At a glance

For sensitive applications that require a pressure hysteresis of 0.02 bar. The output pressure p2 is adjustable within the pressure regulation range.

- Good control characteristics with minimal pressure hysteresis and primary pressure compensation
- High secondary exhausting for fast reaction times
- Variants to EU Explosion Protection Directive (ATEX)

Pneumatic connection

Depending on the size, different connection types can be selected:

- Individual fittings that are fastened via a female thread
- Connecting plates with female thread

EU certification

Optional device variant EX4 for use in potentially explosive areas of zones 1, 2, 21 and 22

Special material properties

[F1A]	Recommended for production plants for manufacturing lithium-ion batteries, F1A
-------	--

Metals with more than 1% copper by mass are excluded from use. Exceptions are circuit boards, cables, electrical plug connectors and coils

Type code

001	Series	
LRP	Precision pressure regulator	
LRPS	Precision pressure regulator, lockable	
002	Pneumatic connection	
1/8	Female thread G1/8	
1/4	Female thread G1/4	
7.0	For sub-base diameter 7 mm	

003	Pressure regulation range	
0,7	Up to 0.7 bar	
2,5	Up to 2.5 bar	
4	Up to 4 bar	
6	Up to 6 bar	
10	Up to 10 bar	

004	EU certification	
	None	
EX4	II 2GD	

005	Special material properties	
F1A	Recommended for production plants for manufacturing lithium-ion batteries, F1A	

Datasheet

General technical data

Pressure regulation range	0.1 ... 6 bar	0.05 ... 4 bar	0.05 ... 0.7 bar	0.1 ... 10 bar	0.05 ... 2.5 bar
Pneumatic connection, port 1	G1/8, For sub-base Ø 7 mm	G1/4			
Pneumatic connection, port 2	G1/8, For sub-base diameter 7 mm	G1/4			
Size	40	50			
Design	Piloted precision diaphragm control valve				
Controller function	Output pressure constant, With secondary venting				
Type of mounting	Front panel mounting In-line installation With accessories	Front panel mounting In-line installation With accessories Either:			
Mounting position	optional				
Actuator lock	Rotary knob with detent	Rotary knob with detent, Rotary knob with integrated lock			
Max. pressure hysteresis	0.02 bar				
Pressure gauge (ANALOG) or Pressure display (DIGITAL)	Prepared for G1/8				

Standard nominal flow rate q_{nN}

Pressure regulation range	0.1 ... 6 bar		0.05 ... 4 bar	0.05 ... 0.7 bar	0.1 ... 10 bar	0.05 ... 2.5 bar
Pneumatic connection, port 1	G1/8	For sub-base Ø 7 mm	G1/4			
Standard nominal flow rate (standardised to DIN 1343)	300	240	2,000	800	2,300	1,800

Operating and environmental conditions

Operating pressure	0.1 ... 1.2 MPa
Operating pressure	1 ... 12 bar
Operating pressure	13.8 ... 180 psi
Operating medium	Compressed air to ISO 8573-1:2010 [7:4:4], Inert gases
Note on operating and pilot medium	Lubricated operation not possible
Ambient temperature	-10 ... 60°C
Media temperature	-10 ... 60°C
Storage temperature	-10 ... 60°C
Corrosion resistance class CRC ¹⁾	2 - Moderate corrosion stress

1) Corrosion resistance class CRC 2 to Festo standard FN 940070. Moderate corrosion stress. Indoor application where condensation can occur. External visible parts with primarily decorative surface requirements that are in direct contact with the surrounding industrial environment.

Materials

Material housing	Die-cast aluminium, Aluminium
Material seals	NBR
Note on materials	RoHS-compliant
LABS (PWIS) conformity	VDMA24364-B1/B2-L

Additional material specifications – products for battery production (LRP-...-F1A)

Suitability for the production of Li-ion batteries	Product corresponds to the internal product definition from Festo for use in battery production: Metals with more than 1% by mass of copper, zinc or nickel are excluded from use. The exceptions are nickel in steel, chemically nickel-plated surfaces, printed circuit boards, cables, electrical plug connectors and coils
--	--
