Features of stainless-steel cylinders:

Their applications:

- Even in harsh operating environments, components have to be sturdy and totally reliable. The aim is to achieve high availability while reducing downtimes in machine systems. Wherever pneumatic drives stand no chance because their surface quality cannot withstand the surrounding media, stainless steel cylinders are the best choice. The corrosion-proof design of systems requires not only the selection of a suitable steel, but also a matching range of mounting components and accessories.
- Application example: In the maturing cellar of a cheese factory, stainless-steel cylinders are surrounded by an atmosphere with an unpleasant mix of ammonia, lactic acid and 98% humidity.

Our strength:

- Stainless-steel cylinders from Festo are characterised by resistant materials, such as 1.4301 and 1.4401. These popular high-alloy, stainless austenitic chrome-nickel and chrome-nickel-molybdenum steels protect against chemical or electrochemical stress as well as damage to the material surfaces caused by cleaning agents and disinfectants. These material groups are particularly resistant to even surface corrosion and offer increased protection against pitting and crevice corrosion.

The benefit to you:

- Our stainless steel cylinders are globally available thanks to the worldwide Festo service network. We offer an extensive range of standards-based cylinders to DIN ISO 15552 and 6432. In addition, we supply a range of mounting components and accessories tailored to the cylinders. The stainless steel cylinders are provided with NSF-H1 compliant greases and with wipers according to BGVV (Federal Institute for Risk Assessment) guidelines. They can thus be used in the food sector. We would be happy to inform you about future additions to our stainless-steel program. Take advantage of this opportunity and get in touch with us!

Good to know:

- For difficult applications, you can rely on our years of experience in stainless steel. Our experts will answer any questions you might have about surface finishes and chemical resistance.

Resistant to:

- Absolute resistance to pitting and crevice corrosion is not always guaranteed, even with ideal application parameters. Parameters such as a concentration of chloride ions, contact time, temperature and decreasing pH value increase the pitting effect of chloride ions. It must be therefore be ensured that, during design, assembly and operation, all areas of the system can be well flushed to avoid a concentration of chloride ions.
- Selected sealing materials ensure very high resistance to numerous chemical compounds. Further information on media resistance can be found on the Internet at www.festo.com.
- In many industry sectors, machinery gets exposed to different kinds of contamination and therefore needs to be cleaned. The extent of the cleaning process ranges from dry wiping of the system to wet cleaning and foam cleaning with different application times and concentrations. A general recommendation on compatibility is therefore not possible. In principle, we recommend cleaning with the piston rod retracted to avoid washing out the lifetime lubrication.

Diagrams

The diagrams shown in this document are also available online. These can be used to display precise values.

Series

[CRDNG] Standard-based cylinder, double-acting, based on ISO 15552, stainless steel

CRDNG: standard design

[CRDNGS] Standards-based cylinder with swivel flange, double-acting, based on ISO 15552, stainless steel

CRDNGS: version with swivel flange

Characteristics

Cushioning

End-position cushioning has the following functions:

- Reduces kinetic energy in the end positions
- Avoids vibrations
- Reduces noise generation

[PPV] Pneumatic cushioning, adjustable at both ends

The drive is fitted with pneumatic end-position cushioning, which can be adapted by the operator for maximum performance according to the moving mass and speed.

Benefits:

- Very powerful

Position sensing

[A] For proximity sensor

By using proximity switches, any position can be detected.

Piston rod type

[S2] Through piston rod

- The piston rod can be used for connection at one end of the cylinder
- Identical forces in the forward and return stroke

Temperature range

[S6] Heat-resistant seals max. 120 °C

For use in the temperature range 0 ... +120 °C

Datasheet

General technical data							
Piston diameter	32 mm	40 mm	50 mm	63 mm	80 mm	100 mm	125 mm
Stroke	10 ... 2,000 mm						
Pneumatic connection	G1/8	G1/4		G3/8		G1/2	
Piston rod thread	M10x1.25	M12x1.25	M16x1.5		M20x1.5		M27x2
Design	Piston Piston rod Swivel clevis Tie rod Cylinder barrel						
Cushioning	Pneumatic cushioning, adjustable at both ends						
Cushioning length	19 mm	21 mm	23 mm	30 mm		40 mm	
Position detection	Via proximity switch						
Type of mounting	Via female thread With accessories Either:						
Mounting position	optional						

Operating and environmental conditions	
Temperature range	Standard Heat-resistant seals max. 120°C
Conforms to standard	ISO 15552
Operating medium	Compressed air to ISO 8573-1:2010 [7:4:4]
Note on operating and pilot medium	Lubricated operation possible (in which case lubricated operation will always be required)
Operating pressure	0.06 ... 1 MPa
Operating pressure	0.6 ... 10 bar
Operating pressure	8.7 ... 145 psi
Ambient temperature ¹⁾	-20 ... 80°C 0 ... 120°C
Suitable for use with food ²⁾	See supplementary material information
Corrosion resistance class CRC ³⁾	4 - Very high corrosion stress

1) Note the operating range of the proximity switches.

2) CRDNG-...S6: Not suitable for direct contact with food products because of the seals and the grease used.

	For Ø 32	High-alloy stainless steel	150 g	161852	CRZNG-32
	For Ø 40		285 g	161853	CRZNG-40
	For Ø 50		473 g	161854	CRZNG-50
	For Ø 63		687 g	161855	CRZNG-63
	For Ø 80		1,296 g	161856	CRZNG-80
	For Ø 100		2,254 g	161857	CRZNG-100
	For Ø 125		3,484 g	185362	CRZNG-125

Trunnion support CRLNZG					
	Description	Material mounting	Product weight	Part no.	Type
	For Ø 32	High-alloy stainless steel	205 g	161874	CRLNZG-32
	For Ø 40, 50		323 g	161875	CRLNZG-40/50
	For Ø 63, 80		435 g	161876	CRLNZG-63/80
	For Ø 100, 125		739 g	161877	CRLNZG-100/125

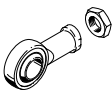

Clevis foot CRLNG					
	Description	Material mounting	Product weight	Part no.	Type
	For Ø 32	Electropolished	133 g	161840	CRLNG-32
	For Ø 40	High-alloy steel	161 g	161841	CRLNG-40
	For Ø 50		281 g	161842	CRLNG-50
	For Ø 63		370 g	161843	CRLNG-63
	For Ø 80		562 g	161844	CRLNG-80
	For Ø 100		915 g	161845	CRLNG-100
	For Ø 125		2,539 g	176951	CRLNG-125

Swivel flange CRSNCS					
	Description	Material mounting	Product weight	Part no.	Type
	For Ø 32	High-alloy stainless steel	161 g	2895920	CRSNCS-32

Accessories

Swivel flange CRSNCS					
	Description	Material mounting	Product weight	Part no.	Type
	For Ø 40	High-alloy stainless steel	239 g	2895921	CRSNCS-40
	For Ø 50		403 g	2895922	CRSNCS-50
	For Ø 63		576 g	2895923	CRSNCS-63
	For Ø 80		1,173 g	2895924	CRSNCS-80

Rod clevis CRSG					
	Description	Material rod clevis	Product weight	Part no.	Type
	For Ø 32	High-alloy steel	101.8 g	13569	CRSG-M10X1,25
	For Ø 40		162.8 g	13570	CRSG-M12X1,25
	For Ø 50, For Ø 63		380.2 g	13571	CRSG-M16X1,5
	For Ø 80, For Ø 100		757.8 g	13572	CRSG-M20X1,5
	For Ø 125		2,022.1 g	185361	CRSG-M27X2

Rod eye CRSGS					
	Description	Material housing	Product weight	Part no.	Type
	For Ø 32	High-alloy steel	87 g	195582	CRSGS-M10X1,25
	For Ø 40		129 g	195583	CRSGS-M12X1,25
	For Ø 50, For Ø 63		265 g	195584	CRSGS-M16X1,5
	For Ø 80, For Ø 100		464 g	195585	CRSGS-M20X1,5
	For Ø 125		1,333 g	195586	CRSGS-M27X2

Self-aligning rod coupler CRFK					
	Description	Material housing	Product weight	Part no.	Type
	for Ø 32	High-alloy stainless steel	230 g	2305778	CRFK-M10X1,25
	for Ø 40			2305779	CRFK-M12X1,25
	for Ø 50, 63		670 g	2490673	CRFK-M16X1,5
	For Ø 80/100		1,280 g	2545677	CRFK-M20X1,5

Mounting kits for proximity switches DASP					
	Description	Material retaining bracket	Product weight	Part no.	Type
	For Ø 32 ... 63	High-alloy stainless steel	28 g	8174843	DASP-V4-8-A-R1
	For Ø 80 ... 125		39 g	8174844	DASP-V4-12-A-R1

Proximity switch CRSMT-8M for T-slot, magneto-resistive						
	Type of mounting	Switching output	Electrical connection	Cable length	Part no.	Type
	Screw-clamped, insertable in the slot from above	3-wire PNP N/O contact	Open end	5 m	574380	CRSMT-8M-PS-24V-K-5,0-OE-EX2
				10 m	574381	CRSMT-8M-PS-24V-K-10,0-OE-EX2
			Plug M8, A-coded	0.3 m	574383	CRSMT-8M-PS-24V-K-0,3-M8D-EX2
					574382	CRSMT-8M-PS-24V-K-0,3-M12-EX2

Accessories

Connecting cables NEBA, straight, M8 connection

	Electrical connection 1, connector system	Electrical connection 2, connector system	Electrical connection 2, number of connections/cores	Cable length	Part no.	Type
	M8x1, A-coded, to EN 61076-2-104	Open end	3	2.5 m	★ 8078223	NEBA-M8G3-U-2.5-N-LE3
				5 m	★ 8078224	NEBA-M8G3-U-5-N-LE3

Connecting cables NEBA, straight, M12 connection

	Electrical connection 1, connector system	Electrical connection 2, connector system	Electrical connection 2, number of connections/cores	Cable length	Part no.	Type
	M12x1, A-coded to EN 61076-2-101	Open end	3	2.5 m	8078236	NEBA-M12G5-U-2.5-N-LE3
				5 m	8078237	NEBA-M12G5-U-5-N-LE3

Connecting cables NEBA, angled, M8 connection

	Electrical connection 1, connector system	Electrical connection 2, connector system	Electrical connection 2, number of connections/cores	Cable length	Part no.	Type
	M8x1, A-coded, to EN 61076-2-104	Open end	3	2.5 m	★ 8078230	NEBA-M8W3-U-2.5-N-LE3
				5 m	★ 8078231	NEBA-M8W3-U-5-N-LE3

Connecting cables NEBA, angled, M12 connection

	Electrical connection 1, connector system	Electrical connection 2, connector system	Electrical connection 2, number of connections/cores	Cable length	Part no.	Type
	M12x1, A-coded to EN 61076-2-101	Open end	3	2.5 m	8078245	NEBA-M12W5-U-2.5-N-LE3
				5 m	8078246	NEBA-M12W5-U-5-N-LE3

One-way flow control valves CRGRLA

	Description	Pneumatic connection	Material swivel fitting	Product weight	Part no.	Type
	For Ø 32	G1/8	High-alloy stainless steel	37.8 g	161404	CRGRLA-1/8-B
	For Ø 40, 50	G1/4		71.6 g	161405	CRGRLA-1/4-B
	For Ø 63, 80	G3/8		126.9 g	161406	CRGRLA-3/8-B
	For Ø 100, 125	G1/2		262.3 g	161407	CRGRLA-1/2-B
