

# Gripper jaw blank BUB-HGPD-35

Part number: 1180950

FESTO

## Data sheet

| Feature                        | Value                                |
|--------------------------------|--------------------------------------|
| Size                           | 35                                   |
| Mounting position              | optional                             |
| Corrosion resistance class CRC | 2 - Moderate corrosion stress        |
| LABS (PWIS) conformity         | VDMA24364-B2-L                       |
| Ambient temperature            | 5 °C...60 °C                         |
| Product weight per gripper jaw | 278 g                                |
| Type of mounting               | Via through-hole and centring sleeve |
| Note on materials              | RoHS-compliant                       |
| Material unmachined part       | Wrought aluminium alloy              |
