## Twin cylinder DPZ-16-80-P-A-S2 Part number: 159871

**FESTO** 

## **Data sheet**

| Feature                                                      | Value                                                                                      |
|--------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| Stroke                                                       | 80 mm                                                                                      |
| Adjustable end-position range/length                         | 10 mm                                                                                      |
| Piston diameter                                              | 16 mm                                                                                      |
| Operating mode, drive unit                                   | Yoke                                                                                       |
| Cushioning                                                   | Elastic cushioning rings/plates at both ends                                               |
| Mounting position                                            | optional                                                                                   |
| Guide                                                        | Plain-bearing guide                                                                        |
| Design                                                       | Guidance                                                                                   |
| Position detection                                           | Via proximity switch                                                                       |
| Variants                                                     | Through piston rod                                                                         |
| Operating pressure                                           | 0.1 MPa1 MPa<br>1 bar10 bar                                                                |
| Mode of operation                                            | Double-acting Double-acting                                                                |
| Operating medium                                             | Compressed air to ISO 8573-1:2010 [7:4:4]                                                  |
| Note on operating and pilot medium                           | Lubricated operation possible (in which case lubricated operation will always be required) |
| Corrosion resistance class CRC                               | 2 - Moderate corrosion stress                                                              |
| LABS (PWIS) conformity                                       | VDMA24364-B1/B2-L                                                                          |
| Ambient temperature                                          | -20 °C80 °C                                                                                |
| Impact energy in end positions                               | 0.15 Nm                                                                                    |
| Theoretical force at 0.6 MPa (6 bar, 87 psi), return stroke  | 180 N                                                                                      |
| Theoretical force at 0.6 MPa (6 bar, 87 psi), advance stroke | 180 N                                                                                      |
| alternative connections                                      | See product drawing                                                                        |
| Pneumatic connection                                         | M5                                                                                         |
| Material cover                                               | Wrought aluminium alloy                                                                    |
| Material seals                                               | NBR                                                                                        |
| Material housing                                             | Wrought aluminium alloy                                                                    |
| Material piston rod                                          | High-alloy stainless steel                                                                 |
