## Vacuum generator VN-07-L-T4-PQ2-VQ2-O2-P Part number: 536803

**FESTO** 

## **Data sheet**

| Feature                                       | Value  |
|---|--|
| Nominal size, Laval nozzle                    | 0.7 mm   |
| Grid dimension                                | 16 mm  |
| Silencer design                               | Open   |
| Mounting position                             | optional   |
| Ejector characteristic                        | High suction rate<br>Standard  |
| Integrated function                           | Pressure sensor<br>Open silencer                                       |
| Design  | T-shape  |
| Short circuit current rating                  | Pulsed   |
| Measured variable                             | Relative pressure  |
| Measuring principle                           | Piezoresistive   |
| Measurement method                            | Relative   |
| Switching element function                    | N/O contact  |
| Switching function                            | Threshold value comparator<br>Threshold value with variable hysteresis |
| Reverse polarity protection                   | For all electrical connections   |
| Display type                                  | LED  |
| Setting range threshold value                 | -100 kPa0 kPa<br>-1 bar0 bar<br>-14.5 psi0 psi                         |
| Setting options                               | Teach-in   |
| Switching status indication                   | LED  |
| Operating pressure for max. suction flow rate | 0.4 MPa<br>4 bar<br>58 psi   |
| Operating pressure                            | 0.1 MPa0.8 MPa<br>1 bar8 bar<br>14.5 psi116 psi                        |
| Nominal operating pressure                    | 0.6 MPa<br>6 bar<br>87 psi   |
| Max. suction flow rate against atmosphere     | 30.9 l/min   |
| Switch-off time                               | 4 ms   |

| Feature  | Value  |
|--|--|
| Switch-on time                                     | 4 ms   |
| Operational voltage range DC                       | 15 V30 V                                       |
| Inductive protective circuit                       | Adapted to MZ, MY, ME coils                    |
| Max. output current                                | 100 mA   |
| Off-state current                                  | 0.3 mA   |
| Residual ripple                                    | 10 %   |
| Switching output                                   | PNP  |
| Voltage drop                                       | 1.5 V  |
| Overload protection                                | Available                                      |
| Approval   | RCM trademark                                  |
| KC mark  | KC-EMV   |
| CE mark (see declaration of conformity)            | To EU EMC Directive                            |
| UKCA marking (see declaration of conformity)       | To UK instructions for EMC                     |
| Operating medium                                   | Compressed air to ISO 8573-1:2010 [7:4:4]      |
| Note on operating and pilot medium                 | Lubricated operation not possible              |
| Corrosion resistance class CRC                     | 1 - Low corrosion stress                       |
| LABS (PWIS) conformity                             | VDMA24364-B1/B2-L                              |
| Media temperature                                  | 0 °C60 °C                                      |
| Recommended cleaning/purification                  | Soapy water                                    |
| Sound pressure level at nominal operating pressure | 63 dB(A)                                       |
| Degree of protection                               | IP40   |
| Ambient temperature                                | 0 °C50 °C                                      |
| Max. tightening torque                             | 0.6 Nm   |
| Pressure measuring range                           | -100 kPa0 kPa<br>-1 bar0 bar<br>-14.5 psi0 psi |
| Product weight                                     | 36 g   |
| Accuracy in ± % FS                                 | 1.5 %FS  |
| Long-term drift                                    | ± 0.5% FS max.                                 |
| Temperature cooefficient of switching point        | 0.05 %/K                                       |
| Electrical connection                              | 3-pin<br>M8                                    |
| Type of mounting                                   | With through-hole                              |
| Pneumatic connection, port 1                       | QS-6   |
| Pneumatic connection, port 3                       | Open silencer                                  |
| Vacuum connection                                  | QS-6   |
| Material seals                                     | NBR  |
| Material receiver nozzle                           | РОМ  |
| Material housing                                   | POM-reinforced                                 |
| Material fibre-optic                               | PC   |
| Material silencer                                  | PE   |
| Material connector housing                         | Brass<br>PA<br>Chrome-plated and nickel-plated |
| Material transmitter nozzle                        | Wrought aluminium alloy                        |
| Material keypad                                    | POM  |
| Material fitting                                   | Brass<br>Nickel-plated                         |
