## Service unit combination MSB6N-1/2:C3J1M1D1A1F3-WP Part number: 543575

**FESTO** 

## **Data sheet**

| Feature                                               | Value                                                                                                                        |
|-------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| Size                                                  | 6                                                                                                                            |
| Series                                                | MS                                                                                                                           |
| Actuator lock                                         | Rotary knob with detent can be closed with accessories                                                                       |
| Mounting position                                     | Vertical +/-5°                                                                                                               |
| Grade of filtration                                   | 40 μm                                                                                                                        |
| Condensate drain                                      | Manually rotating                                                                                                            |
| Design                                                | Branching module Soft-start valve Pressure switch On/off valve Filter regulator with pressure gauge Standard mist lubricator |
| Controller function                                   | Output pressure constant Via primary pressure compensation With secondary venting With return flow function                  |
| Bowl guard                                            | Plastic bowl guard                                                                                                           |
| Pressure gauge (ANALOG) or Pressure display (DIGITAL) | With pressure gauge                                                                                                          |
| Operating pressure                                    | 4.5 bar18 bar                                                                                                                |
| Pressure regulation range                             | 4 bar12 bar                                                                                                                  |
| Standard nominal flow rate (standardised to DIN 1343) | 2300 l/min                                                                                                                   |
| Characteristic coil data                              | 24 V DC: 1.5 W                                                                                                               |
| Operating medium                                      | Compressed air to ISO 8573-1:2010 [7:4:4]<br>Inert gases                                                                     |
| Note on operating and pilot medium                    | Lubricated operation possible (in which case lubricated operation will always be required)                                   |
| Corrosion resistance class CRC                        | 2 - Moderate corrosion stress                                                                                                |
| LABS (PWIS) conformity                                | VDMA24364-B1/B2-L                                                                                                            |
| Storage temperature                                   | -10 °C60 °C                                                                                                                  |
| Suitable for use with food                            | See supplementary material information                                                                                       |
| Air purity class at output                            | Compressed air to ISO 8573-1:2010 [7:4:-]                                                                                    |
| Media temperature                                     | -10 °C60 °C                                                                                                                  |
| Ambient temperature                                   | -10 °C60 °C                                                                                                                  |

| Feature                      | Value              |
|------------------------------|--------------------|
| Product weight               | 4000 g             |
| Type of mounting             | With accessories   |
| Pneumatic connection, port 1 | 1/2 NPT            |
| Pneumatic connection, port 2 | 1/2 NPT            |
| Pneumatic connection, port 3 | G1/2               |
| Note on materials            | RoHS-compliant     |
| Material housing             | Die-cast aluminium |
| Material bowl                | PC                 |
