## Retro-reflective sensor SOOE-RS-R-PNLK-T

Part number: 8075666

## **Data sheet**

| Feature                                      | Value   |
|--|---|
| Design                                       | Block design  |
| Conforms to standard                         | EN 60947-5-2  |
| Approval                                     | RCM trademark<br>c UL us listed (OL)                        |
| CE mark (see declaration of conformity)      | To EU EMC Directive<br>In accordance with EU RoHS Directive |
| UKCA marking (see declaration of conformity) | To UK instructions for EMC To UK RoHS instructions          |
| Certificate issuing authority                | UL E232949  |
| Note on materials                            | RoHS-compliant  |
| Measuring principle                          | Optoelectronic  |
| Detection method                             | Retro-reflective sensor                                     |
| Type of light                                | Red<br>LED  |
| Max. light spot                              | 65 mm with 1000 mm  |
| Operating distance                           | 0 mm6500 mm   |
| Ambient temperature                          | -40 °C60 °C   |
| Reference material                           | Reference reflector   |
| Switching output                             | Push-pull   |
| Switching element function                   | Switchable PNP, dark switching NPN, light switching         |
| Max. switching frequency                     | 1000 Hz   |
| Max. output current                          | 100 mA  |
| Voltage drop                                 | 0 V1.5 V  |
| Timer function                               | Via IO-Link®  |
| Short circuit current rating                 | Pulsed  |
| Protocol                                     | IO-Link®  |
| IO-Link, Protocol version                    | Device V 1.1  |
| IO-Link, communication mode                  | COM2 (38.4 kBaud)   |
| IO-Link, SIO-Mode support                    | Yes   |
| IO-Link, Port class                          | A   |
| IO-Link, Process data length OUT             | 2 bit   |

| Feature  | Value  |
|--|--|
| IO-Link, Process data content OUT                    | 1 bit (emitter disable)<br>1 bit (Hold)              |
| IO-Link, Process data length IN                      | 2 bit  |
| IO-Link, Process data content IN                     | 1 bit (stability alarm) 1 bit SSC (switching signal) |
| IO-Link, Min. cycle time                             | 2.3 ms   |
| IO-Link, Data storage required                       | 2 KB   |
| Operational voltage range DC                         | 10 V30 V   |
| Residual ripple                                      | 10 %   |
| No-load supply current                               | 25 mA  |
| Reverse polarity protection                          | For all electrical connections                       |
| Electrical connection 1, connection type             | Plugs  |
| Electrical connection 1, connector system            | M8x1, A-coded, to EN 61076-2-104                     |
| Electrical connection 1, number of connections/cores | 3  |
| Electrical connection 1, type of mounting            | Screw-type lock                                      |
| Material electrical contact                          | Gold-plated brass                                    |
| Type of mounting                                     | Via through-hole for M3 screw                        |
| Tightening torque                                    | 0.8 Nm   |
| Mounting position                                    | optional   |
| Product weight                                       | 10 g   |
| Material housing                                     | PC<br>PMMA   |
| Ready status indication                              | Green LED  |
| Switching status indication                          | Yellow LED   |
| Function reserve indication                          | Flashing yellow LED                                  |
| Setting options                                      | IO-Link®<br>Potentiometer<br>Teach-in                |
| Degree of protection                                 | IP65<br>IP67<br>IP69K                                |
| Insulation voltage                                   | 500 V  |
| Immunity to surge                                    | 1 kV   |
| Corrosion resistance class CRC                       | 1 - Low corrosion stress                             |
| LABS (PWIS) conformity                               | VDMA24364 zone III                                   |
| Pollution degree                                     | 3  |
