## Solenoid valve VUVG-L14-T32H-MT-G18-1H2L-F1A Part number: 8164556

## **Data sheet**

| Feature   | Value                                      | l |
|---|--|---|
| Valve function  | 2x3/2-way, open/closed, monostable         |   |
| Type of actuation                                     | Electric                                   |   |
| Valve size  | 14 mm                                      |   |
| Standard nominal flow rate (standardised to DIN 1343) | 500 l/min                                  |   |
| pneumatic working port                                | G1/8                                       |   |
| Operating voltage                                     | 24V DC                                     |   |
| Operating pressure                                    | 0.35 MPa0.8 MPa<br>3.5 bar8 bar            |   |
| Design  | Piston gate valve                          |   |
| Type of reset   | Mechanical spring                          |   |
| Approval  | RCM trademark<br>c UL us - Recognized (OL) |   |
| Certificate issuing authority                         | UL MH19482                                 |   |
| Degree of protection                                  | IP40                                       |   |
| Nominal size  | 4.3 mm                                     |   |
| Exhaust-air function                                  | With flow control option                   |   |
| Sealing principle                                     | Soft                                       |   |
| Mounting position                                     | optional                                   |   |
| Manual override                                       | Detenting<br>Non-detenting<br>Covered      |   |
| Type of piloting                                      | Pilot actuated                             |   |
| Pilot air supply                                      | Internal                                   |   |
| lap   | Overlap                                    |   |
| Pilot pressure  | 0.2 MPa0.8 MPa<br>2 bar8 bar               |   |
| Suitability for vacuum                                | no   |   |
| Switching time off                                    | 24 ms                                      |   |
| Switching time on                                     | 16 ms                                      |   |
| Duty cycle  | 100%                                       |   |
| Max. positive test pulse with 0 signal                | 700 μs                                     |   |
| Max. negative test pulse with 1 signal                | 900 µs                                     |   |
| Characteristic coil data                              | 24 V DC: 0.8 W                             |   |

## **FESTO**

| Feature  | Value  |
|--|--|
| Permissible voltage fluctuations                     | +/- 10 %   |
| Operating medium                                     | Compressed air to ISO 8573-1:2010 [7:4:4]  |
| Note on operating and pilot medium                   | Lubricated operation possible (in which case lubricated operation will always be required)   |
| Vibration resistance                                 | Transport application test with severity level 2 to FN 942017-4 and EN 60068-2-6   |
| Restrictions for environmental and media temperature | -5 50° C<br>Without holding current reduction  |
| Shock resistance                                     | Shock test with severity level 2 to FN 942017-5 and EN 60068-2-27  |
| Corrosion resistance class CRC                       | 0 - No corrosion stress  |
| LABS (PWIS) conformity                               | VDMA24364 zone III   |
| Suitability for the production of Li-ion batteries   | Product corresponds to the internal product definition from Festo<br>for use in battery production:Metals with more than 1% by mass of<br>copper, zinc or nickel are excluded from use.The exceptions are nickel in<br>steel, chemically nickel-plated surfaces, printed circuit boards, cables,<br>electrical plug connectors and coils |
| Cleanroom class                                      | Class 5 according to ISO 14644-1   |
| Storage temperature                                  | -20 °C60 °C  |
| Media temperature                                    | -5 ℃50 ℃   |
| Ambient temperature                                  | -5 °C50 °C   |
| Product weight                                       | 80 g   |
| Electrical connection                                | 2-pin<br>Plug pattern H, horizontal connection<br>Plugs  |
| Type of mounting                                     | On manifold rail<br>With through-hole<br>Either:   |
| Pneumatic connection, port 1                         | G1/8   |
| Pneumatic connection, port 2                         | G1/8   |
| Pneumatic connection, port 3                         | G1/8   |
| Pneumatic connection, port 4                         | G1/8   |
| Pneumatic connection, port 5                         | G1/8   |
| Note on materials                                    | RoHS-compliant   |
| Material seals                                       | HNBR<br>NBR  |
| Material housing                                     | Wrought aluminium alloy  |
| Material screws                                      | Coated steel   |
