## **Solenoid valve VUVG-LK10-M52-AT-M7-1H2L-F1A**Part number: 8173203

**FESTO** 

## **Data sheet**

| Feature   | Value                                     |
|---|---|
| Valve function  | 5/2-way, monostable                       |
| Type of actuation                                     | Electric                                  |
| Valve size  | 10 mm                                     |
| Standard nominal flow rate (standardised to DIN 1343) | 340 l/min                                 |
| pneumatic working port                                | M7  |
| Operating voltage                                     | 24V DC                                    |
| Operating pressure                                    | 0.25 MPa0.7 MPa<br>2.5 bar7 bar           |
| Design  | Piston slide with sealing ring            |
| Type of reset   | Pneumatic spring                          |
| Approval  | c UL us - Recognized (OL)                 |
| Certificate issuing authority                         | UL MH19482                                |
| Degree of protection                                  | IP40                                      |
| Exhaust-air function                                  | With flow control option                  |
| Sealing principle                                     | Soft                                      |
| Mounting position                                     | optional                                  |
| Manual override                                       | Detenting<br>Non-detenting                |
| Type of piloting                                      | Pilot actuated                            |
| Pilot air supply                                      | Internal                                  |
| Flow direction  | Non-reversible                            |
| lap   | Overlap                                   |
| Signal status display                                 | LED                                       |
| Max. switching frequency                              | 2 Hz                                      |
| Switching time off                                    | 17 ms                                     |
| Switching time on                                     | 14 ms                                     |
| Duty cycle  | 100%                                      |
| Max. positive test pulse with 0 signal                | 1600 μs                                   |
| Max. negative test pulse with 1 signal                | 3000 μs                                   |
| Characteristic coil data                              | 24 V DC: 0.8 W                            |
| Permissible voltage fluctuations                      | +/- 10 %                                  |
| Operating medium                                      | Compressed air to ISO 8573-1:2010 [7:4:4] |

| Feature  | Value  |
|--|--|
| Note on operating and pilot medium                 | Lubricated operation possible (in which case lubricated operation will always be required)   |
| Vibration resistance                               | Transport application test with severity level 1 to FN 942017-4 and EN 60068-2-6   |
| Shock resistance                                   | Shock test with severity level 1 to FN 942017-5 and EN 60068-2-27  |
| Corrosion resistance class CRC                     | 0 - No corrosion stress  |
| LABS (PWIS) conformity                             | VDMA24364 zone III   |
| Suitability for the production of Li-ion batteries | Product corresponds to the internal product definition from Festo for use in battery production: Metals with more than 1% by mass of copper, zinc or nickel are excluded from use. The exceptions are nickel in steel, chemically nickel-plated surfaces, printed circuit boards, cables, electrical plug connectors and coils |
| Cleanroom class                                    | Class 6 according to ISO 14644-1   |
| Media temperature                                  | -5 ℃50 ℃   |
| Pilot medium                                       | Compressed air to ISO 8573-1:2010 [7:4:4]  |
| Ambient temperature                                | -5 ℃50 ℃   |
| Product weight                                     | 45 g   |
| Electrical connection                              | 2-pin<br>Plug pattern H, horizontal connection<br>Plugs  |
| Type of mounting                                   | On manifold rail<br>With through-hole<br>Either:   |
| Pneumatic connection, port 2                       | M7   |
| Pneumatic connection, port 4                       | M7   |
| Note on materials                                  | RoHS-compliant   |
| Material seals                                     | HNBR<br>NBR  |
| Material housing                                   | Wrought aluminium alloy  |
